JANESVILLE, WISCONSIN, MONDAY, OCTOBER 11, 1909.

PITTSBURG MADE  
CINCH OF GAME  
IN FIRST ROUNDKNOCKED SUMMERS OUT OF THE  
BOX AND SCORED FIVE RUNS.

PLAYED DESPITE THE COLD

Detroit Outplayed on Their Own  
Field This Afternoon by  
the Pirates.(BY ASSOCIATED PRESS.)  
Detroit, Mich., Oct. 11.—In spite of  
the threatening weather thousands offans crowded the baseball park today  
to see the first of the Detroit series  
in the championship contest. The De-  
troit team was given a great ovation  
when they appeared on the field andThe line-up for today's game, with  
the Pittsburgh also was also given a  
warm welcome.The line-up for today's game, with

JURY HERE FOR  
OCTOBER TERMFIVE OF THE PANEL WERE EX-  
CUSED THIS AFTERNOON.

## THE STREET RAILWAY CASE

Judge Grimm Overrules Demurrer to  
Complaint in City's Action to Re-  
cover for Paving Between

Trucks.

In circuit court this afternoon the  
thirty-six jurors put in an afternoon  
of service. They were: Fred Van  
Gosen of Burlington; John Fisher of Con-  
cord; A. B. Sturtevant of Janesville; J.  
A. Martin and John Martin of Beloit.  
The special panel of six drawn to  
take their places consists of E. J.  
Connell, W. C. Duthie, and W. J.  
Jones of Janesville, Fred Sherman of  
Fulton, Royal P. Smith of Beloit, and  
Frank Newman of Union.At the request of District Attorney  
J. L. Fisher, Judge Grimm granted a  
continuance until the next term of  
the criminal action of the State vs.  
LaCount Coll of Beloit. The de-  
fendant is charged with taking im-  
proper liberties with a girl under six-  
teen years of age but the child's fam-  
ily who now live in Iowa, refuse to  
appear in court and testify.Under the new law 18 instead of 12  
jurors were called to the jury box for  
the trial of the case of Emma Tamm  
vs. Walter Worley, an action brought  
to recover damages for eviction from  
the ice-house property belonging to  
the hotel at Julia. Attorneys McElroy  
& Hendricks appear for the plaintiff  
and J. L. Sherron and J. J. Cunniff  
for the defendant.Grace Hunt was granted a decree  
of divorce from Frank Hunt. There  
was no appearance in person on the  
part of the defendant but Attorney G.  
A. Oestreich appeared in his capacity  
of special divorce counsel.Judge Grimm rendered two de-  
cisions in cases which had been re-  
cently tried. In the action of Wil-  
liam K. Young vs. Stephen D. Grubb,  
the court held that the disputed lot  
between the respective parcels of real  
estate was located along the course  
of the old fence, one foot west of Mr.  
Grubb's old wall.In the action brought by the City  
of Janesville against the Janesville  
Street Railway Co. to recover for cer-  
tain grading, macadamizing, and  
paving between the tracks, the court  
deciding that the ordinance of 1895  
attempting to release the street car  
company from liability for such street  
improvements is void, and that the  
provisions of the original franchise  
are in force. The demurrer to the  
complaint is therefore overruled and  
the defendant granted leave to an-  
swer within 20 days upon paying  
plaintiff's attorney \$10 and costs. The  
amount of money involved in this case  
is \$1,700 for work done on Milwaukee  
and Main streets several years ago.CUDAHY PACKING CO.  
COMPROMISES CASEFirm Is Fined \$5,000 and Pays Back  
Taxes and Special Tax To-  
talling \$27,777.

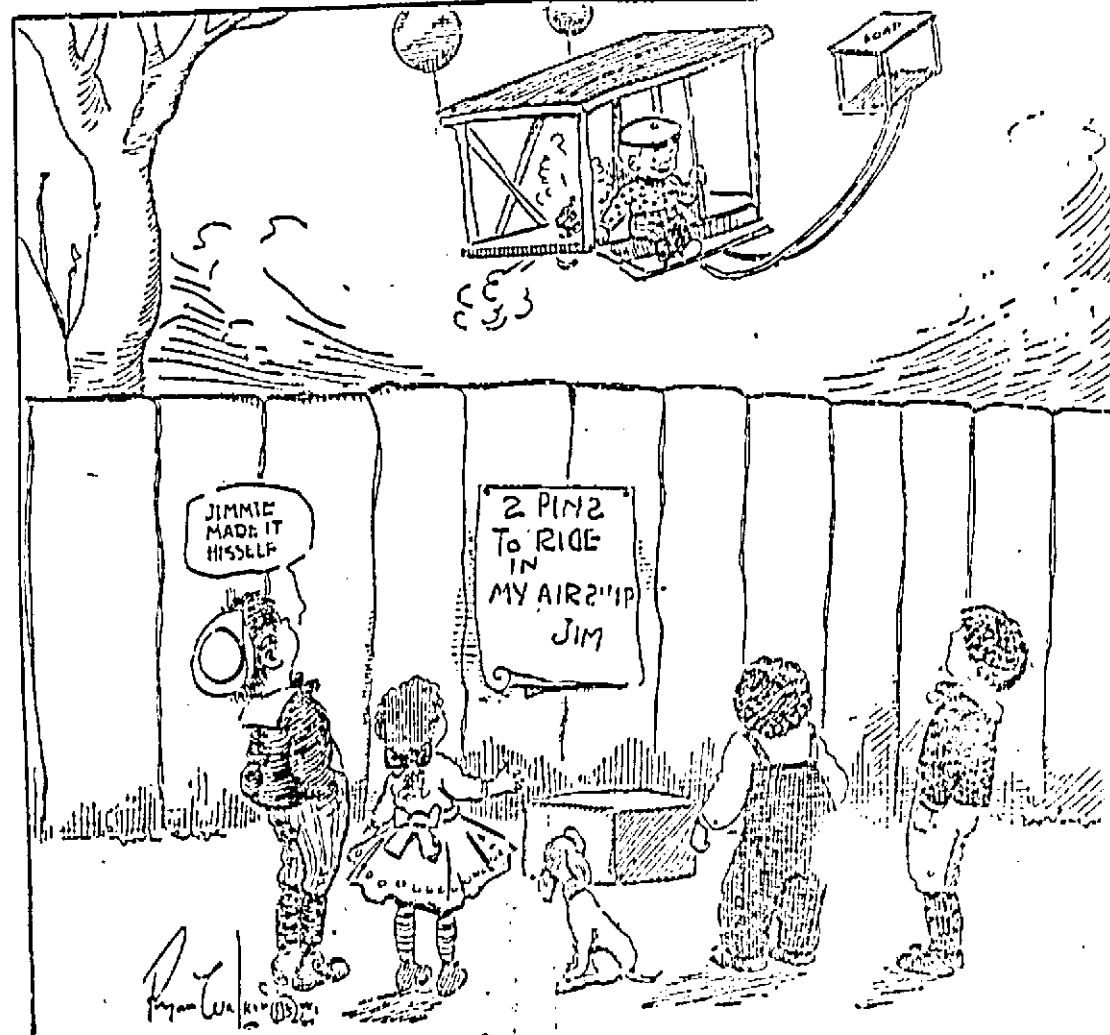

(BY ASSOCIATED PRESS.)

Leavenworth, Kan., Oct. 11.—The  
case of the Cudahy Packing company  
for violation of the federal revenue  
decomposition laws by failing to place  
labels by failing to place stamps of  
proper denomination on packages of  
decomposition was compromised. The  
packing company was fined \$5,000 and  
agreed to pay back the stamp tax  
and special tax for agencies, totaling  
\$27,777.MORSE MUST GO TO  
PRISON SAYS COURTU. S. Appellate Court Affirms Lower  
Court's Decision Regarding  
New York Banker.New York, Oct. 11.—The United  
States appellate court today affirmed  
the decision of the lower federal  
court, sentencing Charles W. Morse,  
former banker and steamship cap-  
tain, to fifteen years' imprisonment  
in the federal prison at Atlanta, Ga.DELAVER PEOPLE GUESTS  
AT EAST LA PRAIRIE HOMEMr. and Mrs. Cephus Cummings En-  
tertained at Enjoyable Party  
Last Thursday.Last Thursday, October 7, Mr. and  
Mrs. Cephus Cummings entertained a  
party of friends at their home in East  
La Prairie. A number of them from  
DeLaver, comprising Mr. and Mrs. A.  
H. Kendrick (president of the Bank  
of DeLaver & Co.), Mr. and Mrs.  
W. H. Lathrop, La Rue H. Star, and  
Mrs. Evelyn Stark, made the trip to  
the home of their host and hostess in  
an automobile. The other guests were  
Mrs. Sweet and daughter, Ida, of De-  
Laver. At one o'clock a delicious four-  
course dinner was served and the af-  
ternoon was enjoyable spent. At five  
o'clock the guests took their depart-  
ure, each receiving a box of sweets  
from their host and hostess.M. R. OSBURN LOSES SUIT  
AGAINST CHARLES THOMPSONRent on Ice Wagons Asked by Plain-  
tiff Not Allowed by Judge

S. B. Tallman.

A judgment in favor of the de-  
fendant was rendered by Judge S. B. Tal-  
lman in the suit brought by M. R. Os-  
burn against Charles Thompson, Esq.,  
which Thompson had paid him, for  
rent on ice wagons and other prop-  
erty for four months. L. A. Avery  
represented the plaintiff and W. H.  
Dougherty appeared for the de-  
fendant. The judge found that the agree-  
ment was a sale and as Osburn had  
taken away the property he could not  
sue for rent. A judgment of \$15.77 for  
costs was given in favor of Thomp-  
son.HALF-BREED PLEADS  
GUILTY: IS FINEDMasson Pleaded Guilty This Morning  
And Was Fined \$100—Woman  
Friend Paid Fine.

(SPECIAL TO THE GAZETTE.)

Beloit, Wis., Oct. 11.—Charles Mas-  
son, the Indian half-breed, who was  
arrested on a charge of forgery,  
pleaded guilty in municipal court this  
morning and was fined one hundred  
dollars and costs. Mrs. Dallara, of  
Austin, Minn., Masson's friend, sent  
the money for his release.This is certainly an inventive age.  
A boy aged 12 years has built a successful airship.—News Item.PANAMA LABEL CASE  
HEARING IS CALLEDFederal Court at Indianapolis Will  
Determine if Defendants Shall  
Be Tried in Washington.

(SPECIAL TO THE GAZETTE.)

Indianapolis, Ind., Oct. 11.—The  
hearing in the so-called Panama label  
case, in which Delavan Smith and  
Charles P. Williams of this city are  
defendants, was called in the federal  
court today. Judge Anderson pre-  
siding. The hearing is to determine  
whether the defendants are to be re-  
moved to the District of Columbia for  
trial.The prosecution of Mr. Smith and  
Mr. Williams grew out of the publica-  
tion in the Indianapolis News, of  
certain articles and editorials, of  
which they are the joint authors, in  
which they are charged with the  
violation of the Panama canal com-  
mission. The articles were published  
in the Indianapolis News, and the  
prosecution was brought by the  
Panama canal commission.The prosecution of Mr. Smith and  
Mr. Williams grew out of the publica-  
tion in the Indianapolis News, of  
certain articles and editorials, of  
which they are the joint authors, in  
which they are charged with the  
violation of the Panama canal com-  
mission. The articles were published  
in the Indianapolis News, and the  
prosecution was brought by the  
Panama canal commission.GERMAN WRITER HAS  
A NEW NOVEL READYGorham Hauptmann Will Give First  
Reading of New Story, Recently  
Completed Next Sunday.

(SPECIAL TO THE GAZETTE.)

Burlington, Oct. 11.—The admirers  
of Gorham Hauptmann are awaiting  
with unusual interest the author's public  
appearance in this city of next Sun-  
day. It has been announced that on  
this occasion Mr. Hauptmann will  
read a new novel, which he has re-  
cently completed. The title of the  
novel, which is "The Story of the  
Lighthouse," is a story of the life of  
a lighthouse keeper and his family.POLISH PATRIOTS  
IN THE CREAM CITYNational Alliance of Poles in This  
Country Opened Annual Con-  
vention Today.

(SPECIAL TO THE GAZETTE.)

Milwaukee, Wis., Oct. 11.—Several  
hundred delegates were in attendance  
today at the opening of the annual  
convention of the Polish National Al-  
liance. Religious services at St. Stan-  
islaus church preceded the opening of  
the business sessions. The organiza-  
tion is a patriotic one, its object be-  
ing to educate the Poles in their  
native land and assist them in getting  
their political rights.

## MEXICO REDUCES CORN DUTY.

Laredo, Tex., Oct. 11.—In order  
to replenish the depleted supply of corn  
in the republic of Mexico, the duty on  
that cereal from the United States  
has been temporarily rescinded.

## MARRIED 12 HOURS: KILLS SELF.

Baton Rouge, La., Oct. 11.—John  
only 12 hours of married life, John  
12, secretary of the Baton Rouge  
Life Insurance agency, shot and  
killed himself here.CENTENNIAL OF  
RELIGIOUS SECTDISCIPLES OF CHRIST CELEBRATE  
ANNIVERSARY OF FOUNDING.

(SPECIAL TO THE GAZETTE.)

Pittsburg, Pa., Oct. 11.—To cele-  
brate the achievements of a century  
and to plan for greater achievements  
to come, an estimated total of 40,000  
representatives of the Disciples of  
Christ, or Christians, have gathered in  
Pittsburg to take part in a week's  
celebration of the centennial anniversary  
of the founding of their denomination.The attendance includes delegates  
from all parts of the United States, to-  
gether with foreign missionaries from  
many lands. The program of the  
celebration is a most elaborate one,  
which is almost without precedent so  
far as numbers are concerned, in the  
celebration of four years of prepara-  
tion.Today was devoted to the registra-  
tion of the delegates and the opening  
formalities. Two sessions will be held  
tomorrow for men only. Among the  
speakers at these sessions will be  
Theodore P. Shonts, former head of  
the Panama canal commission; J. A.  
Long of Kansas City, president of the  
National Lumbermen's association; C.  
C. Chapman of southern California,  
and Dr. E. E. Montgomery, a noted  
Philadelphia surgeon.The centennial celebration proper  
is to take place Saturday, the final day  
of the gathering. The baseball park  
known as Forbes Field, with a seating  
capacity of 25,000, has been ex-  
tended for the occasion, and a great  
number of delegates of congress, dis-  
tinguished jurists and other men of  
national prominence will be among  
the speakers.The daily sessions of the discus-  
sion are to be devoted to the discus-  
sion of home and foreign missions,  
Bible schools, education, evangelism,  
Christian endeavor, church extension,  
and other subjects in which the  
church is interested. Five great au-  
ditoriums have been placed for the  
parallel sessions of the celebration  
and the convention.In celebration of which the present  
great gathering of its communicants  
is held, by considering of how taken  
place with the issuance of a "Decla-  
ration and Address" which was pub-  
lished by the denomination. The "Decla-  
ration" was issued by the "Chris-  
tian Association of Washington, D. C.,  
an organization composed of members  
of different churches, who proclaimed  
it to be their aim "to practice that  
simple original form of Christianity,  
expressly exhibited upon the sacred  
page, without attempting to inculcate  
anything of human authority, of pri-  
vate opinion, or inventions of men as  
having any place in the constitution,  
faith or worship of the Christian  
church; or anything as matter of  
Christian faith or duty for which there  
cannot be expressly produced a thus  
with the Lord's other in expressed  
terms or by approved precedent."In the two years of its history the  
denomination has made steady prog-  
ress. At present it numbers about  
11,000 churches, with 1,200,000 mem-  
bers. The membership is found chief-  
ly in the western states, principally  
in Indiana, Kentucky, Oklahoma and  
Missouri. The church maintains 25  
colleges and universities and claims  
to have more young men studying  
for the ministry than any other de-  
nomination.MASSACHUSETTS LABOR MEN  
MEET IN HOLYOKE TODAYState Branch of American Federation  
of Labor in Annual  
Gathering.

(SPECIAL TO THE GAZETTE.)

Holyoke, Mass., Oct. 11.—The an-  
nual convention of the Massachusetts  
branch of the American Federation  
of Labor began in this city today  
with an attendance of delegates from  
all the principal cities and towns of  
the state. The sessions will continue  
several days, during which time nu-  
merous matters of interest and im-  
portance to organized labor will be  
considered. The annual reports of  
the officers show the affairs of the  
federation to be in a highly satisfac-  
tory condition, with a steadily in-  
creasing membership.Fall Meeting at Latonia.  
Cincinnati, O., Oct. 11.—The fall  
meeting of the Latonia Jockey club  
was inaugurated today under fa-  
vorable conditions. The meeting is  
to continue twenty-four days.LIVE STOCK SHOW  
IN KANSAS CITY, MO.Big Exhibition Opened Today at Stock  
Yards—Bleed's Intermountain  
Fair.

(SPECIAL TO THE GAZETTE.)

Kansas City, Mo., Oct. 11.—The an-  
nual American Royal Live Stock Show  
opened today at the stockyards in a  
mammoth pavilion erected for the  
purpose, and will continue through  
the week. The display embraces over  
1,000 entries in the four best breeds  
—Galloway, Angus, Hereford and  
Shorthorn. Hogs, cattle and sheep  
from Utah, Texas, Arizona, New Mex-  
ico, Colorado, Wyoming, Idaho and  
Canada. The departments devoted to  
horses and sheep are also well filled.  
The poultry display forms the most  
notable of the special features of the  
exhibition this year.Intermountain Fair at Boise.  
Boise, Idaho, Oct. 11.—The Idaho In-  
termountain fair and exposition was  
opened today under most favorable  
auspices. New buildings and im-  
proved grounds, added to a fine racing  
program and an elaborate display of  
all of the products of the state, com-  
bine to give promise of the most suc-  
cessful fair ever held in this section  
of the country. The exhibition will  
continue through the entire week.IS IN LOS ANGELES  
FOR TWO DAYS' STAYTaft, As Guest of His Sister, Will Be  
Entertained in City Today  
And Tomorrow.

(SPECIAL TO THE GAZETTE.)

Los Angeles, Cal., Oct. 11.—Presi-  
dent Taft, after an all night's ride  
from Fresno, reached Los Angeles  
this morning for a visit of two days  
with his sister. Notwithstanding the  
early hour an immense crowd con-  
gregated at the station to witness the  
arrival of the president. A commit-  
tee of prominent citizens was on hand  
to extend the official greetings. From  
the station the president was driven  
in an automobile through the prin-  
cipal streets, all of which were dur-  
ingly decorated for the occasion. His  
two days' stay here the president is  
to be the guest at several elaborate  
feasts of entertainment.ST. CHARLES, MO., HAS  
BEEN FOUNDED A CENTURYCity Is to Celebrate Occasion with  
Festivities Which Will Last  
All This Week.

(SPECIAL TO THE GAZETTE.)

St. Charles, Mo., Oct. 11.—An im-  
mense display of guns and bells aroused  
the residents of St. Charles this morn-  
ing, when, with hundreds of visitors  
from both sides of the river, they be-  
gan a celebration of the 100th anni-  
versary of the settlement of the city.  
The visitors found the city elaborately  
decorated for the occasion. An  
address by Gov. Hurdley, historical ex-  
hibits, motor races, parades and  
athletic events are to be features of  
the week's festivities.MASSACHUSETTS LABOR MEN  
MEET IN HOLYOKE TODAYState Branch of American Federation  
of Labor in Annual  
Gathering.

(SPECIAL TO THE GAZETTE.)

Holyoke, Mass., Oct. 11.—The an-  
nual convention of the Massachusetts  
branch of the American Federation  
of Labor began in this city today  
with an attendance of delegates from  
all the principal cities and towns of  
the state. The sessions will continue  
several days, during which time nu-  
merous matters of interest and im-  
portance to organized labor will be  
considered. The annual reports of  
the officers show the affairs of the  
federation to be in a highly satisfac-  
tory condition, with a steadily in-  
creasing membership.

## FALL MEETING AT LATONIA.

Cincinnati, O., Oct. 11.—The fall  
meeting of the Latonia Jockey club  
was inaugurated today under fa-  
vorable conditions. The meeting is  
to continue twenty-four days.EXPLOSION HAS  
WRECKED PLANT  
OF GAS COMPANYMILTON ACETYLENE GAS PLANT  
DESTROYED THIS MORNING.

## THE CAUSE WAS UNKNOWN

Building Is Entirely Demolished and  
Citizens Will Have to Rely on  
Kerosene Lamps—No One Hurt.Milton, Oct. 11.—At half-past eleven  
this morning the acetylene gas plant,  
which furnishes gas for the majority  
of the private houses and stores in  
Milton and Milton Junction, blew up,  
completely wrecking the building and  
demolishing all the gas machines and  
rotors.Houses in the vicinity were severely  
jarred, shattered broken and panes  
of glass cracked. The roof of the  
demolished building was blown to the  
top of an adjacent windmill and the  
walls have all caved in, leaving a com-  
plete wreck of the entire structure.One of the rotors is thought to have  
escaped the general destruction  
although it cannot be decided as yet  
and if this is so the work of the plant  
can be resumed in a few days; if not,  
the entire plant will have to be re-  
built.No cause is known for the explo-  
sion, as workmen had been making  
some repairs a short time previous  
and no one was in the building or in  
the immediate vicinity when the ac-  
cident happened. No one was injured  
and the loss will total several thou-  
sand dollars.The company is a co-operative one,  
the plant having been purchased by a  
local stock company some time ago  
from M. G. Jeffers of Janesville.  
Whether it will be rebuilt or not is  
not yet certain.The accident will cause the use  
of candles and kerosene lamps for  
the next few days and many stores  
which used the gas will be seriously  
inconvenienced.TODAY'S CHICAGO

MUCH WORK FOR  
SUPREME COURTFALL TERM OF FEDERAL TRIBU-  
NAL TO BE UNUSUALLY  
BUSY ONE.

## ARE MOSTLY RATE CASES

In Which the Interstate Commerce  
Commission Is Named in the  
Complaints As the De-  
fendant.

(SPECIAL TO THE GAZETTE.)

Washington, D. C., Oct. 11.—Not for  
many years, if ever, has there been so  
many cases of the utmost impor-  
tance upon the docket of the United  
States supreme court at the opening  
of its fall term as there are this year,  
and, consequently, the term is ex-  
pected to be unusually busy for the  
tribunal. Particularly large in the  
number of important railroad cases to  
be heard during this term and which  
will put the question as to the powers  
of the interstate commerce commis-  
sion to a final test.One of the cases is the Willamette  
Valley case, another that of the Chi-  
cago & Alton against the interstate  
commerce commission. The latter  
case and a

## Link and Pin

Chicago and North-Western  
FREIGHT TRAFFIC YESTERDAY  
BROKE RECORD FOR THE WEEK

More Trains Sent Out on Day of Rest  
Than on Any Preceding  
Week Day.

Although Sunday is supposed to be a day of rest, the third commandment received a severe jolt at the yards yesterday, for more business was done on the seventh day than on any of the preceding six days delegated to labor. Thirteen extra, more than five hundred cars, were sent out, which is "going some" even for a rush day, to say nothing of the Sabbath. Two of these extras, which were all sent out between 7 a. m. and 6 p. m., were stock trains. There were not enough engines at Jansville to handle the trains, so two crews were sent up from Harrison light with 82 engines, 192 and 175, and each pulled 900 tons out of the yards which was increased to 1200 at Harvard. The Madison Division seemed to have all their engines at Jansville, including their standards, and two R1 engines, the 124 and the 1416, will have to be towed to Barnaboo on one side today. Business was also rushing at the North Jansville gravel pit and Engineer Gibson with engine 676 gathered up every section-hand between Fond du Lac and Milton Junction to shovel gravel.

It was very clearly demonstrated last night that the bunk car was no fit monument for the wrecking outfit and since the demonstration the chilly winds have had much less trouble in finding their way through the clinks and crannies of the working men's Pullman. The bunk car, when shunted down the wrecker's abutment, had considerable of a tick behind it, and in the mix-up which followed came off a poor second.

Engineer Cole and Fireman Dalton went south on an extra at 1 p. m. yesterday with engine 1331 on account of pool crows roasting. They dead-headed back from Chicago on 597 and went on the board today.

Engineer Kauffman and Fireman Lewis went south on a stock train yesterday afternoon at 4:15 with engine 201.

Conductor Laughtlin after being on the motor car runs today after being on 501 for some time.

Engineer Crowley is relieving Engineer Starritt on 558 and 595 today. The N. W. put one over on the Wisconsin Division that time.

Fireman Gruntin has Dalton's place on the 7 a. m. switch-engine today with Engineer Gostland.

Engine 593 on 51 this morning punched a hole in her main reservoir with an iron brake-beam which was lying in the middle of the track and was held up in the house for repairs.

Fireman Hoss has Lewis' place on the 6 a. m. switch-engine today with Engineer Talmadge.

Engineer Monroe brought in the second section of 502 last night with engine number 10.

Fireman Blackshaw has Engineer Kauffman's place on 534 and 541 today.

Conductor Sage, who has been working out of Chicago, is in Jansville today and has some interesting details to relate with regard to the big pay envelopes that engineers and brakemen are getting on work trains out of Chicago.

Engineer Pruner tied up at Jansville yesterday afternoon with engine 1159 as his sixteen hours were up.

Engineer Charles Starritt lost his hat with Switchman J. W. Erdman yesterday, but is not grieving.

Engine 674 was sent back on the Waterloo run this morning and was received with thanksgiving by Engineer Brazzell.

Chicago, Milwaukee and St. Paul Engineer M. McCarthy and Fireman Kuelling took a work train west at 6 o'clock this morning.

Fireman Walton has Art Dooley's place on the switch-engine this morning, with Engineer James.

Fireman Blain went out on 51 this morning with Engineer Falter.

Engineer Mende took Callahan's place on the 1048 yesterday.

Engineer Wilkinson and Fireman Hummel went west on an extra last night at 10 o'clock.

Engineer Salvary brought engine 83 up on the 11 and 8. W. on an extra yesterday afternoon for repairs and took her back to Rockford this afternoon at 3 o'clock.

Engine 902 on 131 came into Jansville in bad shape this morning and a D1 number 1775, took train 319 forward in her place.

## STARTED TO BUILD WALK WITHOUT SIGNED ORDERS

Contractor Hilt and Dr. James Mills Came to the What This

There was trouble this morning when Contractor Hilt, acting under an order of the council which is alleged to have been neither signed nor dated, started to build cement walks in front of lots near the intersection of Prairie avenue and Walker street, owned by Dr. James Mills. Mr. Hilt claimed to be acting at the instance of aldermen of the ward, but the lot owner was hardly satisfied with this. The council will probably come up at the council meeting this evening. Why the order had not been signed does not appear.

CAPTAIN TED COY OF YALE.

New Haven, Conn.—The return of Captain Ted Coy is eagerly awaited by the Yale rooters. Coy has been in a New York hospital since the team reported for practice and it is believed that it will be impossible for him to get into action before late in October. The loss of Coy is a blow to the Elis. He is not to be mislead, of course, to any extent in the early games, but they want him badly in the big event of the year. Timu Coy there are no better fullbacks in the country. He is a hard line plunger, has speed that makes him valuable in open field work, and withal has great defensive power. Few players can attack more quickly than the Blue captain. In addition he is one of the best punters in the east today.

Logan is acting captain of the Yale eleven and will lead in the early games. There is a great fight on for positions especially in the Yale. There is one big catch ahead of Yale, the prevention of another Harvard triumph in the big game. Howard Jones is the head coach this season. He had splendid success with the Syracuse team last year.

## MILTON

An auto party comprising H. H. Wells, J. H. Coon, C. W. Crumb, H. C. Haden and W. W. Clarke saw the game at West Park, Sunday.

J. H. Davidson and wife of Milwaukee are spending the week here.

Rev. Mr. Hansen of South Dakota, preached at the Seventh Day Baptist church Saturday morning.

Mrs. J. E. Davidson went to Chicago Saturday to visit Dr. L. A. Platts and wife.

Dr. W. B. Wells, wife and daughter, and Mrs. L. A. Loofboro of Hoquiam, Wash., are visiting Milton relatives.

L. P. Clerk Haden finished his Chicago-Madison run Sunday.

W. B. Anderson of Lake Mills spent Saturday and Sunday with his mother, Mrs. Clara Anderson.

Hon. A. A. Jackson, of Jansville, spent Sunday with his son, Rev. F. D. Jackson, and family.

George J. Kellor and wife of Jansville visited Mrs. David Walsh today.

Principal J. F. Whitford saw the "Box" and "Cubs" game in Chicago on Sunday.

Miss L. E. Walker returned from Menasha, Saturday.

Mrs. J. H. Tracy is very ill, Ast. Supt. J. B. Jordan, of Madison, was in the village Saturday.

Dr. F. C. Dinwiddie came up from Chicago and spent Sunday here.

H. W. Clarke and wife of Jansville are visitors in the village today. Roy Clarke is "gumming" it this week, having had all his teeth extracted Sunday.

Our summer weather caught a bad cold Sunday.

## Swearing a Remedy.

Science runs to simple remedies these days. Since Metchnikoff discovered the fountain of perpetual youth in a bottle of buttermilk all who will may be centenarians. To rid a community of yellow fever it is only necessary to kill enough mosquitoes, and in nine cases out of ten probable tuberculosis can be cured by the cheap open-air treatment. The discovery of a London doctor that swearing is helpful to health is in line with the up-to-date medical methods.—New York World.

## Found on Ocean's Bed.

The ocean's bed has queer deposits, and among the queerest ever found at the sea bottom must be numbered a Roman temple just accidentally found by divers off Stax, in Tunis. It is supposed to have belonged to a Roman coast town since ingulfed by erosion.

# THEATRE

Popular books as a rule make very poor material for plays, because they contain so much of incident that must be, of necessity, omitted. The notable exception, however, is "Three Weeks," which has been so widely discussed on both sides of the ocean. Since the original copyright performance in England, in which Miss Glyn appeared herself, the play has been revised and reconstructed to such an extent that it is said now to be a powerful love tragedy. It will be presented in its revised form at the Myers theatre on Tuesday, Oct. 12, with a special cast of players. The play will be mounted with special scenery, the two notable effects being the lawn before the hotel at Lucerne and the loggia of the palace of Venice, where the "Feast of the Roses" occurred.

Miss Glyn had a great motive in her book, which was purposely or otherwise misinterpreted by a host of readers; but, in her own dramatization of the story she has left no room for doubt. The moral lesson and object lessons are obvious to all. The play begins with a prologue, showing the home of the queen at Sarlat, and introduces the character of her drunken and vicious husband, thus supplying a plausible motive for all that followed in her life. The sad story of this queen is of particular interest to women, who have comprehended and understood her better than men. They have wept with sorrow at her misfortune and sympathized with her in her great love.

## "Katy" Trains Collide.

Houston, Tex., Oct. 11.—Missouri, Kansas & Texas passenger train No. 3 and a freight train collided head-on near Troy, and Mail Clerk Anderson and Thompson and Engineer Anderson of the passenger train were injured.

When buying advertised goods or answering ads, please mention the G A Z E T T E

## FOOLISH, FOOLISH, QUESTIONS

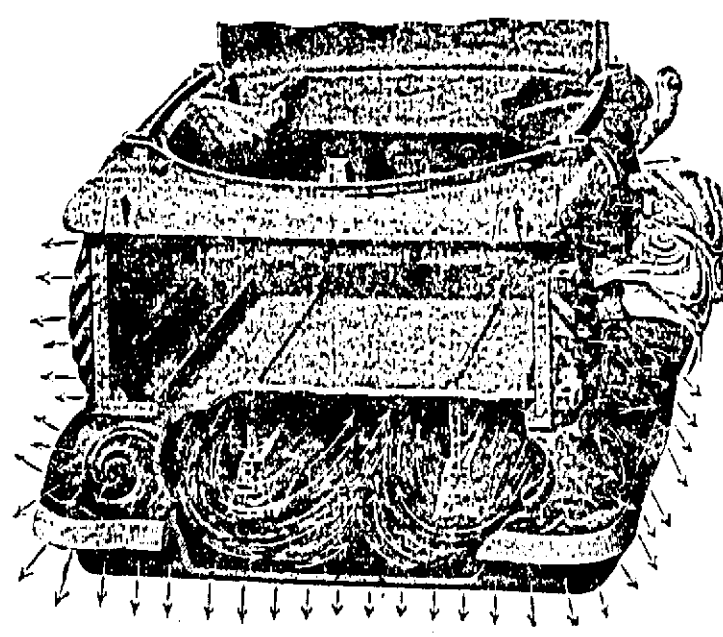

FOOLISH QUESTIONS—40 54.

## MR. TOO-CAREFUL

# This Will Explain to You Why a FAVORITE BASE BURNER

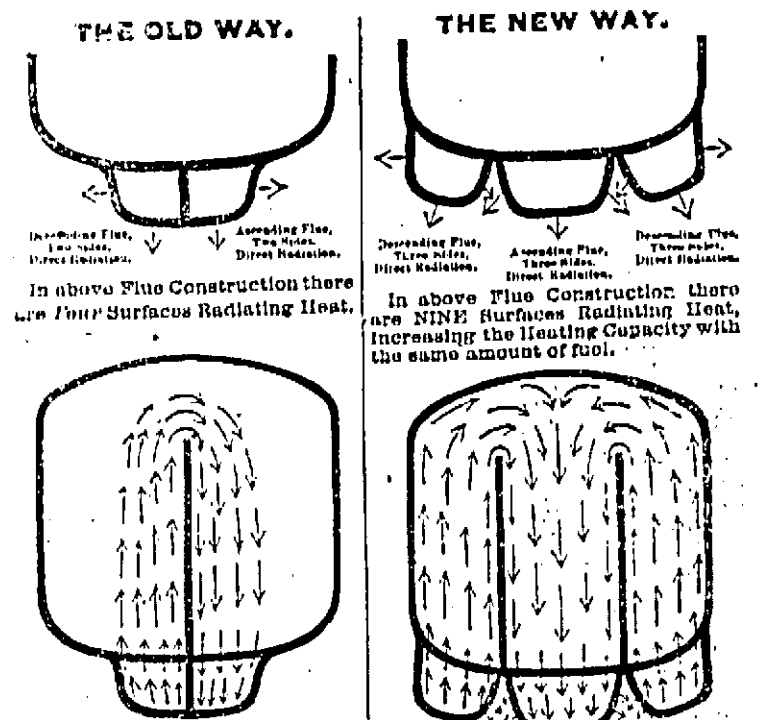

Will produce as much heat with 2 1-2 tons of coal as others will with from four to five tons

which the flue strips are attached; these in connection with the deep pocket around the outer edge of this bottom greatly increases the radiating surface and the strength of the bottom. Notice the strength of the check draft register at the rear of the ash box, it is also made so the pan cannot shut it off, and is located where it cannot burn out and blind from heat. See how clean the stove is made around the top of the ash pan and how the ash chutes project over the pan and how substantial the grata rests are made.

This cut also illustrates the surface to which the ash pit door is fitted which is finished with milling machinery, and the door is fitted with planing machinery, which is the most perfect process known for fitting surfaces. No other stove is made with these features named.

The Favorite Base Burner is guaranteed to have more radiating surface than any other stove with fire pots the same diameter at the top. The depth of a fire pot and diameter of the grate surface are of as much importance in the size as the diameter at the bottom. The size of the extreme bottom, all the flues, ash pit, space around the grate surface could all be contracted in the Favorite in width and depth over two inches each way, and the fire pot kept the same size at the top. We warrant the Favorite to heat more space with less coal than any other stove with fire pots the same size at the top. Compare the quality of the castings with others, the perfect fitting of the doors, mica frames and all the joints through the stove, together with the finish and the superiority of workmanship, unequalled in any other stove and you will then commence to appreciate some of the reasons why Favorite Base Burners are so superior to all others. Wherever one is sold, it results in the sale of others.

Above cut illustrates the arrangement of Bottom Flues in nearly all base burners, showing the heat is not equally distributed.

The "Favorite" Base Burner has More Heating Capacity and is the Most Economical Stove ever made. Why? Because it has about 1/2 more Radiating Surface as compared with same sizes of other base burners, and is Mounted and Fitted Perfectly.

**WHERE WILL THEY LINE UP**  
The following letter to the Milwaukee Free Press is significant, because it has to do with a question of vital importance:  
"To the Editor: Last week the republican state convention of Massachusetts, without a dissenting vote, endorsed the national administration and the Payne tariff law.  
"A few days ago the democratic state convention of Rhode Island denounced the Taft administration and the republican tariff law.  
"Will the republicans of Wisconsin line up with the democrats of Rhode Island or with the republicans of Massachusetts?  
"WISCONSIN REPUBLICAN."  
There is a movement on foot in the middle west to discredit the administration of President Taft and organize an independent party under the leadership of a little band of disgruntled politicians known as insurgents. Most of these men occupied what is known in congress as the "Cherokee strip." They were a little too pure for the party which had honored them, and so, in many instances, cast in their lot with the democrats.  
When it came to lining them up on the tariff question, which was a republican measure pure and simple, they proved to be obstructionists, posing as representatives of the people, and altogether wiser than the party to which they professed loyalty.  
They know more about the tariff question than men who had made a life-long study of it, and freely denounced the president for signing the bill finally adopted by his own party—the only party capable of drafting any kind of a measure.  
They are not satisfied with the bill which became a law, neither do they believe the president honest when he declares that it is the best tariff bill ever enacted and the best that could be secured.  
Falling in their ambition to create a new party they would be willing to turn the country over to Bryanism and free trade, which is all that is left of organized democracy.  
These are the conditions which prompt the "Wisconsin Republican" to ask the question, "Will the republicans of Wisconsin line up with the republicans of Massachusetts or the democrats of Rhode Island?"  
The republican party in the state, as well as every other party, is badly demoralized, because of the workings of the notorious primary law, which has accomplished just what its promoters intended it should—party disorganization.  
Politics in Wisconsin has descended to the level of personal ambition and scramble for office, and the standard will not be raised, so long as the law is in force, but there are just as many republicans in the state as ever and they will continue loyal to the national party and administration.  
The people are not ready to turn the affairs of government over to Bryanism. Neither are they ready to organize a new party to satisfy the ambition of disgruntled politicians. The republican vote of Wisconsin will be with Massachusetts on all national questions.

**IN THE NAME OF REFORM**  
One of the reform measures enacted two years ago by the Wisconsin legislature was a law which prohibited the sale of notes taken in payment for imported horses sold on time.

The man who introduced the bill was honest and believed that he was rendering the state good service. He was influenced by complaints from farmers who had been swindled by fake dealers from other states and desired protection, but it did not occur to him that it would result in driving out of the state all importers who were not financially strong enough to carry notes received in payment, until maturity. Yet this is just what happened.

The law prohibits the sale of notes or their use as collateral, and this is a handicap which resulted in driving out of the state all but two or three wealthy importers. These horses are usually sold on long time and for years Janesville was a leading market, but when buyers from other states were informed that credit could not be given, they went to other states and bought their stock, and Wisconsin not only lost the business but also the advantage of good breeding stock, for Wisconsin buyers also went outside for their purchases. The Galbraiths, for many years heavy importers, were compelled to leave Janesville and locate across the line at De Kalb, Illinois. They are not satisfied and would be glad to return. The matter should be taken up at the special session of the legislature, and the law repealed, and the people of the city can well afford to unite in efforts to have it done.

**A NEW MODEL ROAD**  
"A modern road is the Hummelstown pike, near Harrisburg. It is made of a mixture of water-gas tar, cement, liquid asphaltum, road oil, carbolic disinfecting powder, sulphate of copper, and oil of wintergreen. The sulphate of copper is used to prevent the oils from becoming rancid, and the wintergreen counteracts the odor of the others. There is nothing disagreeable about the smell. A curious effect of the mixture is its disinfecting power. During the past year there was not a single contagious disease in that section. The cost of applying the mixture is five and one-half cents a square yard. The cement holds the dirt together like stone, and the oils make it waterproof, so that it readily sheds water. The road is never muddy, and, unlike a tar road, does not become slippery in winter time. Frost has no effect on it at all, as the mixture will not freeze. The cost of applying is very small, as it is sprinkled on like water. That the method and the mixture are a perfect success has been shown this summer. Despite the heavy automobile and wagon traffic, the road is perfectly smooth and very hard, and it has not the least bit of rutting. Washington Herald.

Thirty-eight years ago Saturday the great fire of Chicago occurred. The city recovered rapidly from the catastrophe, and it is difficult to realize today that it was ever scorched by fire.

La Follette demands the resignation of Ballinger, and denounces him as an agent of "special interests." He is also after President Taft and aspires to be the leader of an insurgent party. Ambition will never be realized.

**Uncle Walt**  
**THE POET PHILOSOPHER**  
By WALT MASON  
(Copyright, 1909, by George Mathew Adams.)

Samantha Arabella Lake has gone abroad and caught a duke—a nobleman of gilded ease, who has a standard blood disease. She'll build again his stately halls, and pay for papering the walls; she'll straighten up his park and grounds, and buy him nags to ride to hounds; she'll tear the cheeks from out her back, to pay the butter and the cook, whose wages have been in arrears for maybe twenty-seven years. In fifty-seven years she'll spend the seeds, the good old rocks that were her daisies; and all the nobles in the land will greet her with the arctic hand, and snub her in her husband's hall, and pass her up with stone stars. And ere a year has run its course, the duke will hustle for divorce, and Arabella's tears will drop upon the marble floors, her lips Samantha's cousin, Mary Ann, has looked up with the plumber man, a gent of industry and peace, whose face is often black with grease. They dwell together in a cot surrounded by a garden plot, and there she raises beans and tripe, while he is fixing valve and pipe. He takes his money, like a man, and hands it over to Mary Ann, and she is sitting down his wage where it will help him in old age. O reader, who has made a duke, or fat and sassy Mary Ann, who gathered in the plumber man?

**PRESS COMMENT.**

**A Mean Man.**  
The Milwaukee Free Press has decided that "the man that steals a bishop's overcoat can be counted upon to exhibit no hesitation in carrying off a red-hot stove.

**Taft's Irrigation Plan.**  
The Monroe Evening Times sees danger in President Taft's suggestion of golf links for western irrigated plains. He admits that the game is provocative of profanity, and can permit the morals of the cowboys to be tempted in this fashion?

**Is It Possible.**  
The Rockford Republic has discovered that Dr. Cook's demonstration in Chicago at the close of his lecture

last evening proved that there are several persons in the United States who believe he found the pole.  
**One Would Think So.**  
The Rockford Register-Gazette discovers that Mr. Bryan admits that it is uphill business winning over the democrats who are against abolishing the tariff on lumber, on wool and on iron ore, but still has hopes that they can make it unanimous one way or the other, insisting that he ought not to be expected to stop fighting till that party millennium comes.

**He is a Man.**  
After years of abuse the Milwaukee Journal has to admit that Stephenson is considered a man in Washington, and says: "The Stephenson paper today has a defense of Cannon. 'Cannon' certainly got in deep in Washington.

**Ambitious People.**  
The Chicago Tribune states that nearly all the male inhabitants of Gary over the age of 21 appear to be aspirants for the office of alderman. Must be something in it.

**Where is Mr. Smith?**  
The Inter Ocean suggests that approval of the discussion now raging among the club women as to their signatures, it is all right to write Mary Ann Smith instead of Mrs. John Smith, but it is bad to write Mrs. Mary Ann Smith.

**Lucky Men.**  
The Inter Ocean remarks: A Kansas City woman pleaded guilty to marrying six farmers without going through the formality of divorce proceedings, and incidentally remarked that all six were so tiresome. We presume it was the deadly monotony of uninterrupted prosperity that wearied her so terribly.

**Always the Lure.**  
Chicago Record-Herald: It is alleged that J. M. Burke wishes to obtain a divorce so that he may marry a beautiful young actress who has made a great hit in one of his plays. The gratitude of some authors is astounding.

**What! Another!**  
The Chicago Tribune announces the sad truth that it learns that Explorer Baldwin is to make a dash to the pole on his own account. What pecuniary consideration, if any, would induce him to do that?

**Well, Perhaps.**  
The Milwaukee Journal suggests that the next thing we know there will be a citizen that will blow the foam off from his politics and find that there is nothing left.

**Not White W. J. B. is Alive.**  
The Chicago Daily News suggests that Mrs. Ruth Bryan Leavitt is to run for congress. Some day she may take up her father's mission and run for the presidency.

**Always Ready.**  
The Madison Democrat says that Speaker Cannon's declaration that he welcomes a fight which is not a mark of bravery. He must fight or quit his job and he's too old in the business and has too many alliances to nerve him on—so he'll fight.

**Heart to Heart Talks.**  
By EDWIN A. NYE.

**SOIL RICHES.**  
Wheat, 700,000,000 bushels.  
Corn, 3,000,000,000 bushels.  
That is the estimate for this year's crop of the two leading cereals of this country.  
Think of it—3,000,000,000 bushels of corn, 400,000,000 more than last year! Local drought may cut the estimate a little, but not much.

Add to this enormous output of the fields the cotton crop, the oats crop, the hay crop, the potato crop, the vegetable crop—here is enormous wealth. Moreover, it is stated authoritatively that the crop of beef and pork and eggs alone exceeds in value the bumper corn crop.

Surely this is the land flowing with milk and honey. And when your big column of figures is footed up you must add to soil production another enormous item of wealth, the mineral crop of America and Alaska. The showing is calculated to provoke speculation concerning the future.

What will be the annual output of our soil when all our soil resources are fully developed?

Intensive farming alone would double the product. Smaller farms and better cultivation would produce wonders.

Millions of acres of desert land are being reclaimed by national and state irrigation improvements. Other millions of acres of semiarid lands will raise good crops by the scientific methods of "dry farming," or moisture conservation.

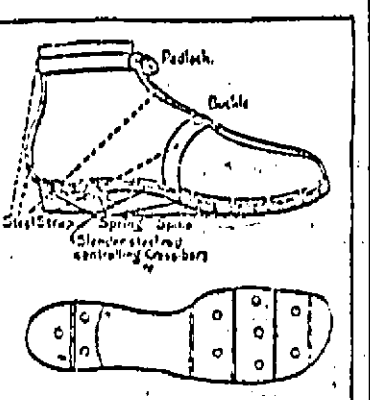

The time is coming soon when every acre of land capable of cultivation may be utilized by scientific methods, seeds adapted to soil and proper culture.

Already lands once pictured on the map as "the great American desert" now blossom as the rose.

What will be the full story of production when the great water powers and the tides themselves will deliver electric power over waves at a trifle of cost?

**INDUSTRY AND MECHANICS**  
**SAFETY SHOES FOR CONVICTS**  
Californian Invents Footgear That Makes It Impossible for a Prisoner to Escape.

A shoe which will make impossible the escape of convicts while being transported from one point to another has been invented by a Californian. The idea came to him after suffering on several occasions through the protrusion of hobnails through the heel of a boot in need of repair.

Convict Safety Shoe.

to this steel sole are sharp spikes, placed in such a position that they will enter the perforations of the leather sole, but kept from ordinarily doing so by crossbars with a series of steel springs on either side.

The whole contrivance is fastened to the prisoner's foot by means of metal straps, held secure by a padlock. With the crossbars in position, the prisoner can walk in the shoes as in ordinary ones, but once he is placed on a train or other conveyance, the officer releases the crossbars and locks them in such a position that they cannot be replaced between the spikes and perforations without a key.

**VALUABLE CONCRETE TESTS**  
Investigations of Its Strength When Various Prepared and Subjected to Certain Conditions.

The increasing use of reinforced concrete as a building material has led to numerous investigations of its strength when variously prepared and when subjected to various conditions. Perhaps the most elaborate series of tests is that now being carried on by the United States geological survey, which has recently published (Bulletin 344) a preliminary report on the subject. A full report, with a thorough analysis of the results, will be published after the 62-week tests are completed.

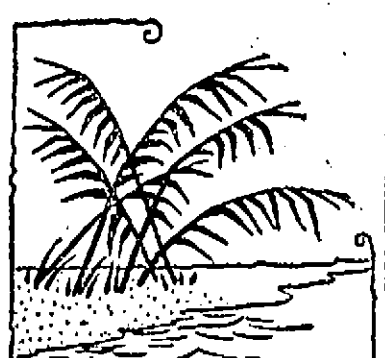

The attempt has been made to bring out the comparative value of gravel, granite, limestone and clinders for use in concrete, and the effect of age and consistency on the strength and on the stiffness.  
No attempt has been made in this preliminary report, however, to generalize the results of the tests, or to draw any conclusions, however warranted they may appear from an examination of the test data. It is hoped that the matter presented will provoke discussion, and in order to promote this end extended expressions of opinion or attempted applications of theory to results have been avoided. A running commentary on the results of the tests, however, emphasizing matter of particular interest and indicating a few points that might lead to interesting analyses, is included.

The bulletin, which is by Richard L. Humphrey, may be had free of charge on application to the Director, United States Geological Survey, Washington.

**A Steel Canal.**  
In connection with the Nile irrigation system, at Wadi Kom-Omba, a steel canal, 5,200 feet in length, has been constructed to distribute water from the service reservoir to the earth canals. In section, this metallic canal is semi-circular, 20 feet broad and 12 deep. It is made up of 17 sections, connected by expansion joints, and the riveted steel plates of which it consists are six millimeters in thickness. During the construction the engineers were troubled, among other things, by the unequal expansion of the metal. The expansion was greatest on the side where the sun happened to shine full upon the plates, and the inequality was often sufficient to displace the end of a section about to be joined as much as four inches to one side or the other.

**Highest Chimney in World.**  
The loftiest chimney in the world was recently put into service at the large smelting works at Great Falls, Mont., where it will serve to carry off the gases from the greater part of the large plant. The chimney, which is built of brick, is 500 feet in height above the ground. It is 50 feet in diameter at the top, and increases gradually in diameter to the base, says Scientific American. The flue includes a dust chamber in which vertically hung wires serve to take out the dust from the smoke. The dust is removed from the wires by shaking mechanism and falls in hoppers in the floor, from which it is loaded into cars in a pit below.

**Few Letters Go Astray.**  
Out of every million letters that pass through the post office it is calculated that only one goes astray.

What watering place?

**A Complete Disguise.**  
Little Jessie was very proud of her new coat and bonnet that her mamma had just bought for her. One day, not long afterward, she was going to visit her cousin. After marching around awhile with the new coat and bonnet on, she exclaimed: "O, Mamma, Dora won't know me, will she? She'll open the door and say: 'Why? Jappie Donnebarger, who are you?'—Dolmeator.

**Why Spider Is Protected.**  
The origin of the well-known superstition that it is unlucky to kill a spider lies in the fact that it was the custom in ancient Rome to make prognostications from the manner in which cobwebs were woven.

**NO REASON FOR DOUBT**  
A Statement of Facts Backed by a Strong Guarantee.

We guarantee immediate and positive relief to all sufferers from constipation. In every case where our remedy fails to do this we will supply it free. That's a frank statement of facts, and we want you to substantiate them at our risk.

Renall Orderlies are a gentle, effective, dependable and safe bowel regulator, strengthening and tonic, that are eaten like candy. They reestablish nature's functions in a quiet, easy way. They do not cause any laxative purges, griping or nausea. They are so pleasant to take, and work so easily, that they may be taken by any one at any time. They thoroughly tone up the whole system to healthy activity. They have a most beneficial action upon the liver.

Renall Orderlies are unsurpassable and ideal for the use of children, old folks and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. That's why we back our faith in them with our promise of money back if they do not give entire satisfaction. Two sizes: 12 tablets 10 cents and 26 tablets 25 cents. Remember you can obtain Renall Remedies in Janesville only at our store—The Renall Store, The Smith Drug Co.

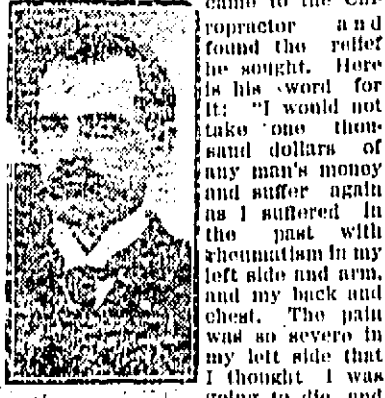

**Rheumatics! Why Suffer?**

THE CHIROPRACTOR IS MAKING PEOPLE WELL WHO SUFFERED WITH RHEUMATISM IN ITS WORST FORM.

YOU CAN BE MADE WELL.

Let Him Prove to You as He Has to Others That You Can Be Made Well Again.

Read the story of Mr. J. Keyes, who suffered long and acutely with rheumatism, and came to the chiropractor and found the relief he sought. Here is his word for it: "I would not take one thousand dollars of any man's money and suffer again as I suffered in the past with rheumatism in my left side and arm, and my back and chest. The pain was so severe in my left side that I thought I was going to die, and after trying several remedies without even a slight relief, I was advised to try the Chiropractic method of removing disease. Three treatments gave me relief and this simple science of Chiropractic adjustment is the most wonderful of which I have ever heard. I would advise all sufferers to go to R. Puddicombe, Brittan Block, as I believe he has the science and knowledge which will remove any kind of diseased condition.

"J. KEYES, Perkins Hotel." The Chiropractic method is entirely different from medical practice, as no drugs are used, no surgery performed, and the Chiropractor does not even call himself "Doctor" or "Professor," being simply a man who has had skilled training in a school devoted to the particular branch of human knowledge, and its wonderful application to the alleviation and removal of pain and disease.

No matter what your trouble, no matter how long you may have been sick, whether it is an acute pain or a settled chronic disease, whether it is ASTHMA, BRONCHITIS, LUNG TROUBLE, INDIGESTION, BOWEL COMPLAINT, KIDNEY TROUBLE, BLADDER TROUBLE, RHEUMATISM, NEURALGIA, HEADACHE, IMPOTENCY, PAINS AND ACHES OF ANY KIND, come to the Chiropractor who will give you free consultation and advice.

R. PUDDICOMBE, Graduate Chiropractor, Office up one flight, Brittan Bldg., 111 E. Grand avenue, Delet, Wis. Office hours 9 to 12 a. m., 2 to 6 and 7 to 8 p. m. Sunday hours, 10 to 12.

**Reaching Life's Goal.**  
If you want to be somebody in this world you must assert your individuality and assert it in the right direction, so that it may lead to a goal of honor for yourself and be an example for others. Find out what you ought to do, say to yourself: "I must do it," then begin right away with "I will do it," and keep at it until it is done.

**WILL TRADE**

FOR STOCK OF MERCHANDISE, OR HOUSE AND LOT IN JANESVILLE OR FOR A FARM—

10 vacant lots in Chicago. 3 vacant lots in Ashland. 2 vacant lots in Janesville. Will put in some cash if necessary.

See us for anything you want to buy or sell in this way of real estate.

**REALTY CO. LOWELL**

## Not Boasting

Do not get the idea from my advertising that I am boastful. I am not vain of my work, I am merely enthusiastic over the success that one or two methods of mine meet with.

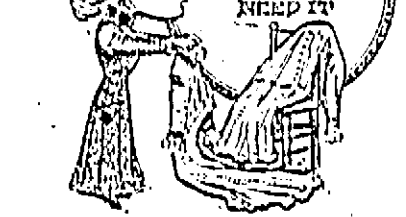

For instance, my painless method of extracting teeth is to my knowledge the best method known, and it gives me pleasure to show people how I save them pain.

I do the best work that I possibly can, for all patients. Nearly everybody likes my work and so I draw the conclusion that it is satisfactory.

Satisfy yourself on this point by coming to me for your next Dental work.

## INSPECTOR CROFT TELLS OF SEWERS

Work on Jackson Street and Western Avenue Will Be Completed Within Two Weeks.

"Two weeks from tonight the sewer work in my territory will all be completed with the exception of the main outlet," said City Inspector George Croft this morning. "The 27-inch pipe on River street has all been laid and there are still four blocks of 8-inch to be put in on Jackson street and one block of 12-inch on Western avenue. The digging machine which has been brought from Davenport and which Foreman Thomas Garvey and a crew of four men are operating can cut an eight-foot trench at the rate of 75 feet an hour, running full speed, and if it were not for the numerous water and gas pipes the whole four blocks could be finished in four days. Those pipes must all be located in advance and the elevator raised and of course this entails numerous delays. The main outlet is now being brought around the corner of High and Galena streets and is on its way down Galena street to river. The trench is being excavated to a depth of 25 feet and it will take until November to finish the four blocks. The People's Construction Co. now has a crew of twenty men at work on this contract."

## DELAVAN TEAM TOO STRONG FOR HIGHS

Deaf Mutes Defeated Local Students 10 to 0 in Saturday's Game at Athletic Park.

Janesville high school football players were not strong enough for their opponents in the game at Athletic park, Saturday afternoon and were beaten by the team from the State School for Deaf Mutes, by a score of 10 to 0. The Delavan boys outwheeled the lower city youths by about twenty or twenty-five pounds, and when they hit Janesville's line, Janesville could not hold them. Janesville was good on the offense, and made good gains, but lacked in the defense. The playing of the high school eleven in the first half was somewhat disheartened and not as good as usual and their opponents profited by it and scored two touchdowns. In the last half Janesville settled down to work, played better football and kept their antagonists down to one goal. Murphy, one of the star men, is out of the game for the season, and his loss is quite keenly felt. Sullivan did splendid work at right end and Merrill, right half, also played a good game.

## BALL PLAYERS HAVE A BANQUET TUESDAY

Commercial League Teams to Dine at Myers Hotel Tomorrow Evening At Seven-Fifteen.

Tomorrow evening at seven-fifteen thirty odd players, managers, umpires and heads of the six firms represented during the past summer in the Commercial baseball league will dine at the Myers hotel. It had been originally planned to have the banquet at the Y. M. C. A. on this date but through a misunderstanding it was found impossible to secure the supper tomorrow night, and after this postponement the date of the banquet, set some weeks ago, the managers of the teams decided to hold it at the Myers hotel. After the banquet proper there will be speeches and a most enjoyable evening will be spent. The members of the teams and the umpires who officiated are invited, as well as the heads of the business houses represented in the league.

## ALD. GEO. BUCHHOLZ ON EASTERN TOUR

Left This Morning for Pittsburg—Will Attend Carriage Makers' Convention at Washington, D. C.

Alderman George O. Buchholz departed this morning on a two weeks' tour of the east and his itinerary will include Pittsburg, New York City, Washington, D. C., and a number of other cities. At Washington next week he will attend the national convention of the carriage-makers.

**Automobile Parties:** Automobile parties registered at the Hotel Myers yesterday were as follows: Mr. and Mrs. E. E. Harper and Mr. and Mrs. C. G. Merriam of La Crosse; Mr. and Mrs. G. N. Pratt, Mr. and Mrs. O. F. Becker, Mr. and Mrs. W. A. Walker, and Harold Curtis of Racine; Mr. and Mrs. P. F. Stone of Rockford and Mr. and Mrs. G. L. Lindsey of Chicago.

"The Genius and Poetry of Robert Burns"

as interpreted by

**Rev. David Beaton, M. A.**

The successful lecturer on Burns must have, at any rate, three qualifications: he must be a man of the people, who thinks with and for the people, and is in profound sympathy with everything human; he must also have the poetical temperament, the power to imagine things and to put himself in the midst of common scenes in popular life; and he must, further, be a Scotchman, with a full knowledge of Scotch life, Scotch wit and Scotch humor, and blessed with the Scottish accent without. Dr. Beaton combines all these requisites. His lecture on Burns was one of the most delightful I have ever listened to. No one could be more in touch with his subject than he is, and no one could give better expression to the sentiments of the great Scotch poet.

UNITED STATES BATTLESHIPS IN DRILL OFF PROVINCETOWN.

First picture taken of the fleet since the addition of the latest novelty in warfare—the fire control mast. From left to right, the Connecticut, flagship; Vermont, Kansas, Louisiana, Minnesota and New Hampshire.

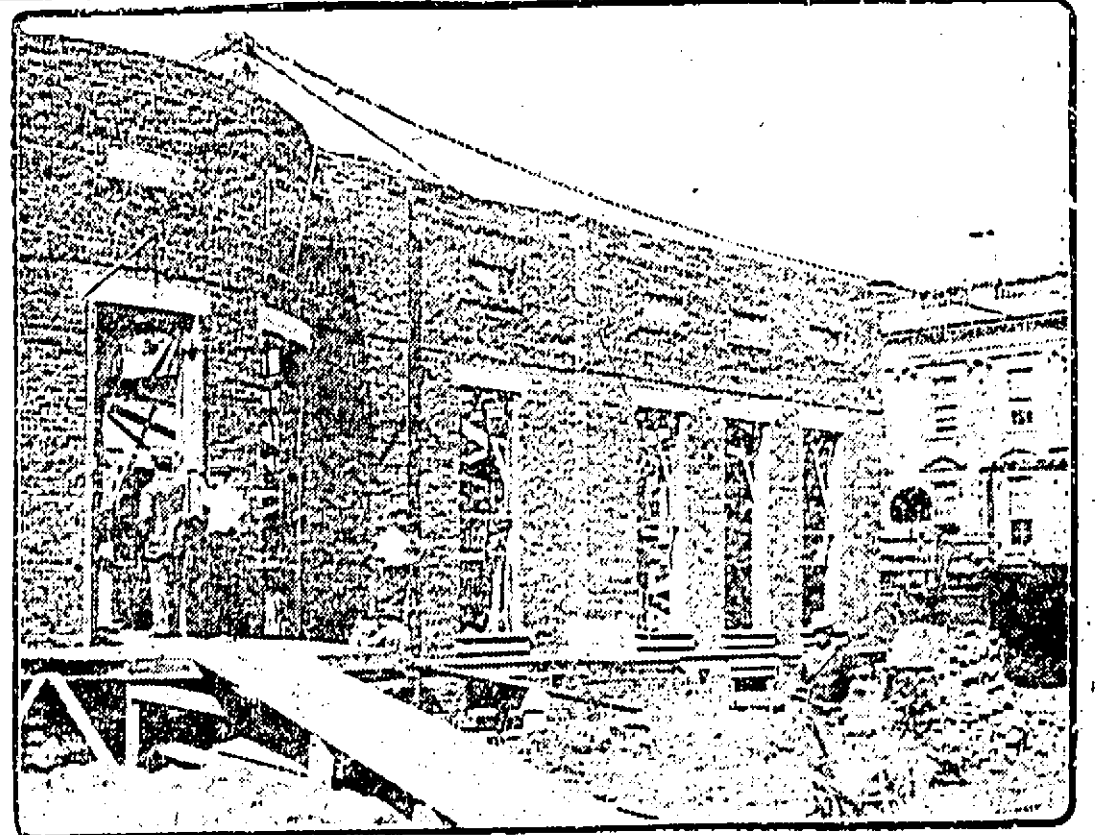

Provincetown, Mass.—As the flagship Connecticut led the fleet of Uncle Sam's most modern battleships out into the bay, where the severe standardizing tests are being held, a mighty cheer went up from those on shore at the grandeur of the spectacle.

The latest addition to Uncle Sam's fighting machines, the fire control masts, excited the admiration of all. The maneuvers in Cape Cod bay during the next month will be of unusual interest to those interested in naval warfare. Fifty-four war vessels will take part, comprising the largest and most notable fleet of war vessels ever assembled for active duty under the Stars and Stripes.

The vessels, including 17 battleships, cruisers, torpedo boats, submarines, refrigerators, ships, tenders and supply ships, numbering 54 vessels, all told, and representing a valuation of nearly \$200,000,000, are drawn up in two parallel lines along the cape of Truro, four miles below, standing at the head of the line being Rear Admiral Schreeder's flagship, the Connecticut. On board the vessels are 15,000 men.

Besides the flagship the other battleships are the Vermont, Louisiana, Kansas, Maine, Minnesota, Georgia, Rhode Island, Nebraska, Idaho, Missouri, Virginia, Ohio and Mississippi.

The big event of the maneuvers is expected to be a grand final review by President Taft and Secretary of the Navy George Von L. Meyer, which will come near the close of the week according to the general understanding among naval officers.

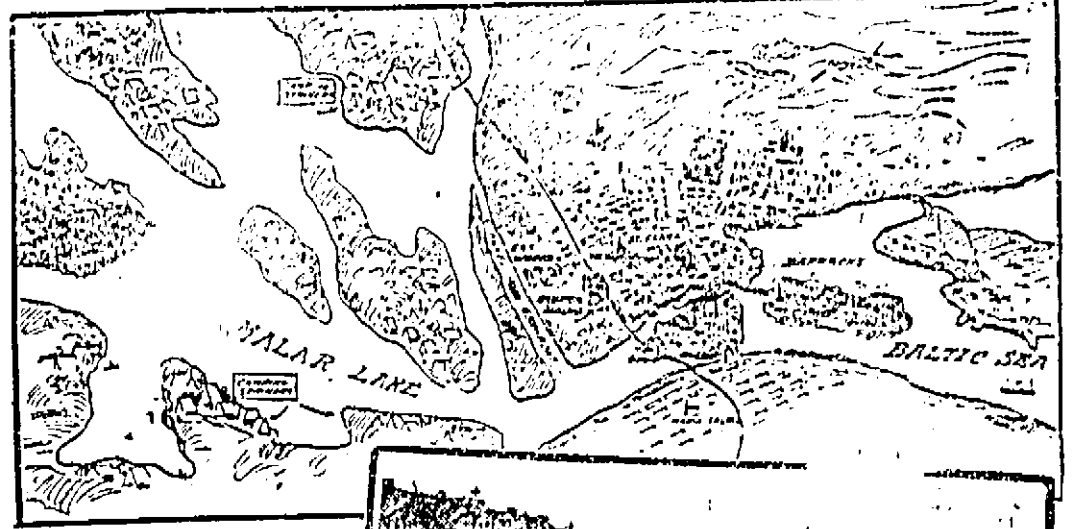

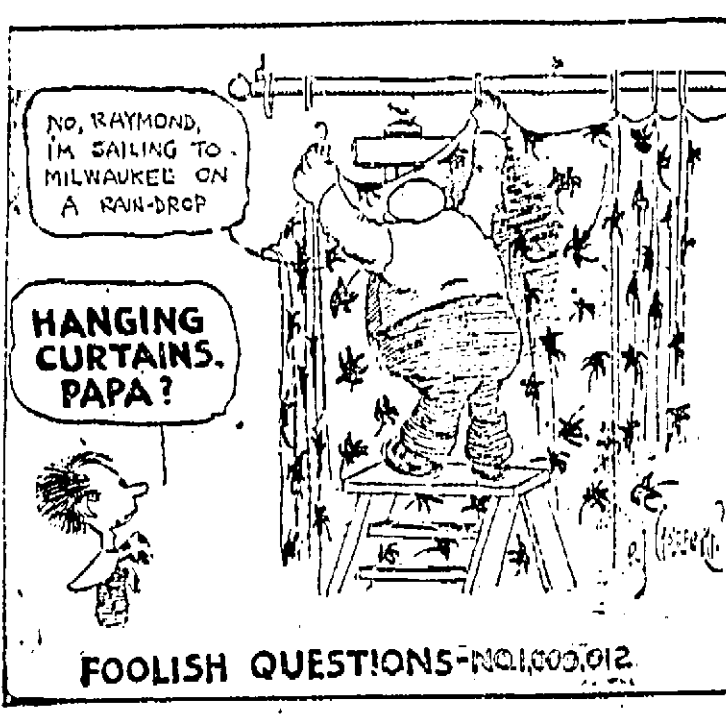

New annex to White house taking the place of the famous tennis court where Roosevelt and his tennis cabinet played so many famous games.

Washington, D. C.—President Taft's new executive offices being constructed this summer are moving forward completion rapidly. They occupy the site of President Roosevelt's famous tennis court and will afford future presidents more office room.

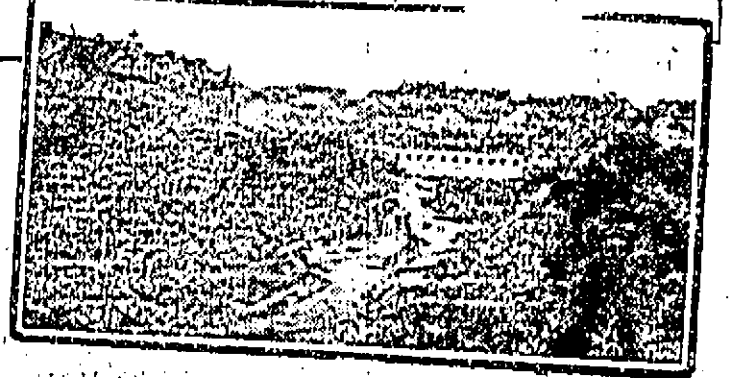

### FOOLISH, FOOLISH, QUESTIONS

### FOOLISH, FOOLISH, QUESTIONS

Map of Stockholm, Sweden, and environs, showing Malar Lake, where most of the 300,000 strikers are camping and living on the fish they can catch. The troops are quartered at the fort, which commands the Baltic. The railroad station and gas plant are heavily guarded to prevent their being dismantled. The picture below shows the gardens of Gustave, one of the most beautiful spots in Sweden.

Stockholm, Sweden.—The fibre of the old Norsemen live today in Sweden. The people have risen in their might to throw off the yoke of oppression. The crisis is not over. What the final result will be, the next few weeks will tell.

# The EPWORTH LEAGUE LECTURE COURSE

A Season of Unusually Strong Attractions That Will Prove a Rare Treat For Every Lover of Aesthetic Enjoyment.

Charming Musical Evenings  
Educative, Stimulating Lectures  
Inspiring Dramatic Interpretations

## Commonwealth Ladies' Orchestra

Of Boston, An Unqualified Success,  
OCTOBER 26

The work of this organization rivals that of the GREAT bands and orchestras of this and other countries. The company is composed of solo artists, selected with great care for the part they take in the exquisite ensemble. The program covers the entire field of classical, popular and standard compositions. It will include a string quartet, xylophone, trombone and cornet solos, besides the regular soloists, making an entirely new program of great variety. Wherever this group of artists has appeared it has been received with enthusiasm that was sustained from the beginning to the close of the concert. Miss Nellie May Horne, cornet soloist, is, without question, the greatest lady soloist in this country. She combines brilliant execution with delicate expression and purity of tone.

## Mrs. Bertha Kunz-Baker

FEBRUARY 4

believes that the greatest treasures of America lie not in her mines and her fields, but in the minds and hearts of her people. Mrs. Baker deals with literature, especially the drama, as a great playground for the human spirit, where we may find recreation and gain skill to play the game of life, and feels that it is the office of all Art to lead our sympathies beyond the experiences of individual life, to give us unto ourselves, and to give us to understand our true relation to Humanity, to Nature and to God—and so to lift life upon a plane of clearer vision, purer feeling, gentler and more generous action—to bring harmony and beauty and joy into everyday life, to free man from himself, and let him enter the Life Universal.

As an interpreter of the drama, Mrs. Baker stands absolutely alone for range of vision, breadth of sympathies, versatility of genius and power of inspiring enthusiasm. Her greatest happiness comes when, with Kipling's "Explorer," she can say of some new truth or beauty,

"And I've found it,  
AND IT'S YOURS!"

## Hon. George D. Alden

MARCH 3

"Probably not as good as the best; possibly not as bad as the worst; perhaps a little better than the average." These are the words which Judge Alden uses in the advertising matter which he has written for himself.

Judge Alden's lectures deal with vital questions; with those intimate problems of life which we believe ought to be publicly discussed; with matters touching the formation of character as the one action of the question how to properly safeguard our inherited rights; the development of true manhood and womanhood as the sole and only hope for our Nation's permanency, progress and prosperity.

His ten years of active practice of the law in Boston and New York, and his ten years upon the bench in Massachusetts, ought to have given him that breadth of view and practical experience to make his treatment of any subject instructive.

His genial manner and the possession to a marked degree "the saving grace of humor," should surely serve as a guarantee against any possibility of his making the discussion of even the most serious questions, dull or uninteresting.

Were you to ask for the A. B. C. of Judge Alden's success, the answer would be—his animation in delivering his message; Bravery in presenting his premises, and the convincing manner in which he draws his conclusions.

In Judge Alden you will find that happy but rare combination of brilliancy of expression with forceful epigrams which will linger in the memory and a dash and spirit in giving them utterance which leaves little to be desired.

Subject: "THE NEEDS OF THE HOUR."

## The Central Grand Concert Company

APRIL 23

In the Central Grand Company, you will recognize a group of notable artists who seldom appear outside the concert halls of metropolitan centers. Four such imposing figures are not often assembled in one company. Every one of the artists is a great soloist, but while solo numbers will be included in the program, a special feature will be the concerted numbers, in which the full strength of the company will be engaged.

MAXIMILIAN DICK, VIOLINIST—That Mr. Dick is a luminary who scintillates with greater brilliance than almost any other in his class is universally acknowledged.

MISS EDITH ADAMS, VIOLONCELLIST—She charms with the magic of her touch. The intricacies of manipulation that mark the artist are hers in a pronounced degree.

MME. AUBI PEARLE-MEYER, SOPRANO—Mme. Pearle-Meyer has electrified many of the musical centers of the world, and has proved her right to be called a great artist.

ADOLPH KNAUER, PIANIST—To hear Mr. Knauer's interpretations alone is sufficient incentive to every music lover to attend these concerts.

## Do Not Miss This Exceptional Series of Entertainments

Course tickets (6 engagements) \$1.00. Seat reservations for the entire course, 50c additional. Single admissions, 50c; reserved seats, 75c.

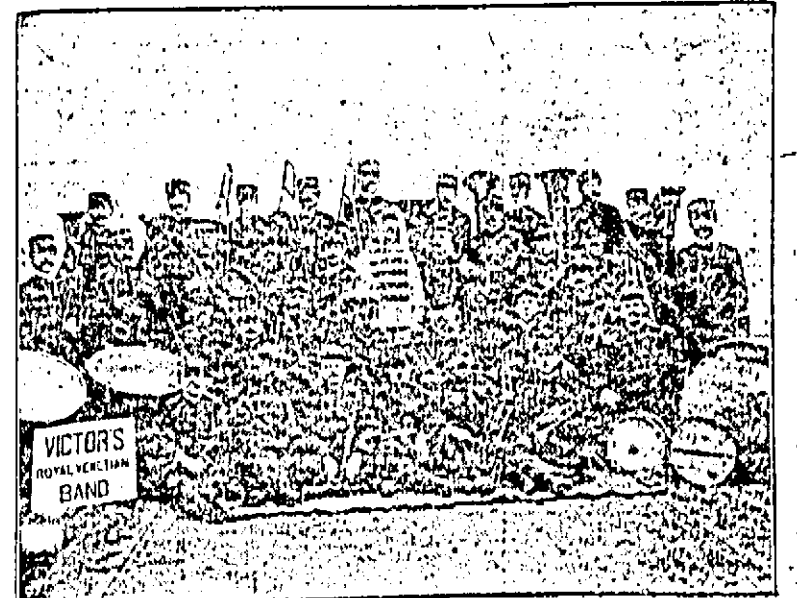

Tickets on sale and reservations made at Koebell's jewelry store.

CARGILL MEMORIAL M. E. CHURCH

## Victor and His Royal Venetian Band

DECEMBER 13

The playing of Victor's Royal Venetian Band is a revelation in harmony and finished execution. Each number on its program is enthusiastically applauded, and the band is forced to respond to numerous encores. In his triumphal tour of America and Europe, Mr. Victor has proved, not only that he is an artist of unusual powers, but that every member of his company is an artist as well. They take their audiences by storm wherever they appear. It can safely be promised that a delightful musical treat is in store for all who hear these artists. The program will include brilliant arias, overtures, choruses, and solos, from the grand operas, enlivened here and there by popular airs and compositions in a lighter vein. A number of vocal selections will give variety and charm to the program.

## Mr. DeWitt Miller

NOVEMBER 16

Mr. Miller is so widely and so favorably known throughout the land that any commendation here is superfluous. He has delivered lectures in every state in the Union, and the demand for him is such that almost every day in the year, summer and winter alike, is given to the work. Mr. Miller possesses magnetism of manner and breeziness of speech and action that leave every person brighter and fresher after having heard him. His sly wit, true humor, and charming pathos are inimitable. He has that rare ability of holding his audience in rapt attention from first to last. He is acknowledged to be one of the most acceptable platform speakers of the age.

## STOMACH DISTRESS IS ENDED FOREVER

Indigestion, Stomach Gas, Heartburn or Dyspepsia Will Be Relieved in Just About Five Minutes.

Take your sour, out-of-order stomach—or maybe you call it indigestion, dyspepsia, gastritis or catarrh of stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Page's Dipepsin and let you eat one 23-grain Triangule and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is Food Fermentation—food souring; the digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness or many other similar symptoms.

If your appetite is feeble, and nothing tempts you, or you belch gas or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Dipepsin.

**J. W. SCOTT**

# WOMAN'S PAGE

## The Evening Chit-Chat

By RUTH CAMERON

I WANT you to be sure to have my dress done Tuesday afternoon. I am going away Wednesday morning," said my friend as the little dressmaker finished unpinning the half created creation and unwound it from her figure.

Once outside she explained to me: "Of course, I'm not going away but I want to be sure to have the dress to wear to the theatre Friday night, and that's the safest way."

And she thinks she is a very good woman.

Aside from the lie, think of the unfairness of it. To finish that dress two days before her patron really needed it may have meant great inconvenience to the dressmaker. And she was not as I happened to know, one of the exasperating kind whose procrastinations drive her customers to subterfuges like that.

Twice I have known my own dressmaker to sit up and work after the doctor had positively ordered her to take to her bed, because two of her customers had demanded their gowns on certain dates and she feared the loss of patronage if they were not done.

And on one of these occasions, as I found out afterwards, the date on which the customer had asked to have her gown ready had been put three days in advance of the day on which she really needed it.

Women do that not only with dressmakers but with the washerwoman, the milliner, and all who serve their wants. And I think it is absolutely wicked.

If you have given your dressmaker ample time and she has unfairly taken in more work than she can handle and do justice to you, the overwork that results when you demand your gown at any particular time is, of course, not at all your fault, but if you delay, as so many women do, having your gown for some special event made until it is inevitable that the dressmaker should be hurried, and then put the time when the gown must be delivered two or three days in advance of the time when it is actually needed, you are nothing in a very inexcusable way.

"But if you don't put the time two or three days ahead, you won't get it on time at all," protests someone.

You probably will if you give your dressmaker a reasonable time and then tell her decisively when you want it.

And if you don't get what you want that way, you will do yourself more justice by simply withdrawing your patronage than by trying to get your end by unjust means.

Parrying broken promises by lies and unjust demands is fighting the devil with fire.

Now fighting the devil with fire may be all right if you simply have to fight him, but since that kind of fire is apt to hurt those who wield it as much as those against whom it is wielded, on the whole it's better not to use it.

## HINTS FOR THE HOME

The art fashion of providing a linen chest is quite the latest fad. It is a fascinating one, the gathering of dainty household linens, embroidered with the monogram of the collector. Heavy monograms or letters arranged in a diagonal line are the most desired marking, but the single initial is not refused. A girl who makes this fad her own becomes almost miserly in a dainty, girlish way, for it is like any other collection, a constant joy to the owner. She takes pride in each addition, and many an ice cream soda goes into the linen chest in the shape of towels and napery. The heavy padded letters are not so difficult to make after one consults the expert in the

stores where embroidery materials are sold. The padded forms and letters simplify the work materially and many little twists and turns may be learned for the asking. For rough fingers—When embroidering the roughness that seems inevitable when doing household work often causes much trouble. If the fingers are rubbed with fine pumice stone until the roughened places are smooth and then washed in a diluted acetic acid bath, or good cedar oil, will do, this trouble will be abated. For drawn lines—Always rub them that is to be drawn with a damp cloth. A little soap is good also to facilitate the drawing of the threads.

ANOTHER FIGHTER MARRIED  
MISS ANNA LITTLE AND AL KAUFMAN.

San Francisco.—Miss Anna Little, who has become the bride of Al Kaufman, the big thirteenth fighter, was the prima donna of an opera company which is playing up and down the Pacific coast. She possesses a good voice, is pretty, and knows how to act as well. Kaufman fell in love with the prima donna during a recent visit to the north, met the lady and their engagement soon followed.

### Real Estate Transfers

Alvin J. Magill to Wm. K. Magill \$175 lot 24 Plummer's 3d Add. Beloit. Thomas S. Goodger and wife to Walter G. Schultz \$1 pt. sec. 5 & 9-3-14.

A. P. Ingalls and wife to E. Van Patten \$1 lot 13 Fisher's 3d Add. Evansville.

Julia Baumann to August W. Baumann \$2,000 pt. lots 3 & 4 Croft's Add. Janesville.

New Turban

The new turbans follow the example of the broad-brimmed hats of last season and set well down over the forehead. They are high and broad, and as a usual thing, modest and simple, the most novel of these new head coverings is that called the Russian turban, of which the above is an example. This was formed from many folds of silk liberty, swathing the frame in true eastern fashion and trimmed with a single smart agrette, standing erect at almost the exact center of the front.

### ST. CHARLES IS 100 YEARS OLD First Incorporated City in Missouri Celebrates Its Birthday.

St. Charles, Mo., Oct. 11.—This is centennial week for St. Charles, and this, the first incorporated city in the state of Missouri, has made plans for a birthday celebration in which there will be something doing all the time. The festivities began to-day with an educational and municipal utilities parade that was most elaborate and about two miles in length. An opening address by Champ Clark, Missouri's eloquent congressman, led and then Gov. Hadley made an appropriate talk. This afternoon there were motor boat races, the entries including the fastest boats in the Mississippi valley, owned by E. Corcoran of Fort Madison, Ia., and Edward Koehn of St. Louis. There was also a swimming race in which Champion Hanley of Chicago competed. This evening there will be an illuminated river parade and fireworks.

To-morrow is Missouri and Old Settlers' day, the features being a parade of cities, addresses by Senators Warner and Stone, and a night camp fire. Wednesday is merchants' and manufacturers' day, Thursday automobile and bankers' day and Friday county day. Saturday will be "all fools' day" and everyone is expected to be masked all day and night. There will be a fantastic parade, horse races and special attractions on the "Via Lusitania" or Pike.

### Parade Will Greet Gomers.

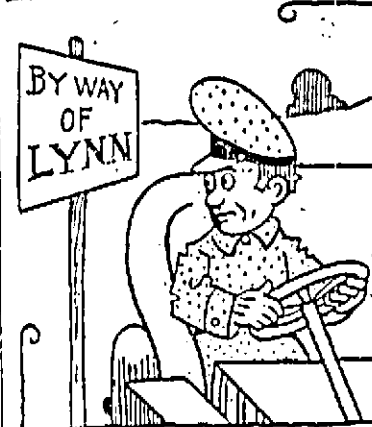

Washington, Oct. 11.—When Samuel Gomers arrives in Washington Tuesday evening he will be greeted by a concourse of labor union membership of the national capital as a returning hero, not as a man for whom the doors of the jail already yawn. He will be met at the station by a parade of some 25,000 laboring men and women.

### Cats Her Only Companion.

Wallingford, Vt., Oct. 11.—Watched over by 11 cats, which were her only companions in life, the body of Miss Mary J. Johnson, 67 years old, was found to-day in her lonely home under circumstances indicating murder. Robbery is the only suspected motive.

### Falls Off Train and Is Killed.

Almonmouth, Ill., Oct. 11.—The body of Frank Behlper of Peoria was found on the Burlington right of way near Peoria. It is believed that he fell off the train and was killed.

What musical instrument?

### CURES ECZEMA QUICKLY

New Discovery Has Revolutionized the Treatment of Skin Diseases.

Nothing in the history of medicine has ever approached the success of the new skin remedy known as posidon, which, it is safe to say, has cured more cases of eczema and skin diseases than any remedy ever offered for these ills. The success of posidon is not at all surprising when it is considered that even a very small quantity applied to the skin stops itching immediately and cures chronic cases in two weeks. The very worst cases of eczema, as well as acne, herpes, tetter, piles, salt rheum, rash, eczema, humors, scurf and every form of skin, yield to it readily. Blebs, scales, sores, pimples, redness, itching and inflammation disappear almost immediately when posidon is applied, the complexion being cleared over night. Every draught keeps both the 20 cent size for minor troubles and the \$2 size, and other of these may be obtained in Janesville at the Smith Drug Co., and the People's Drug Co., as well as other reliable drug stores. But no time is even asked to purchase posidon without first obtaining an expert medical package which will be sent by mail free of charge, upon request, to the Emergency Laboratories, 32 West Twenty-fifth St., New York City.

## STATE CHARITIES IN ANNUAL CONFERENCE

Prof. Tufts in Address on "Housing of the People" Demands State Action.

Peoria, Ill., Oct. 11.—The program arranged for the sessions of the fourteenth annual state conference of charities and correction, which was formally opened here Saturday night and began business in earnest to-day, is of unusual interest and never before have so many experts been brought to the state for the benefit of its philanthropic service. The sessions will close Tuesday evening.

At the opening session, held in the Peoria Women's club building, Miss Clara P. Burland and Mayor E. N. Woodruff welcomed the delegates, and President William C. Graves responded and then spoke briefly on the new state charities administration law. Prof. James H. Tufts of the University of Chicago followed with an address on "The Housing of the People," illustrated by lantern slides showing bad conditions in Joliet, East St. Louis, Peoria, Alton, Chicago and other cities.

Prof. Tufts declared that the conditions he found, as the result of a survey made for the conference, demanded correction, either by state or local legislation.

The feature of this morning's session was an address on "Occupations for the Blind," by Charles F. Campbell, superintendent of the industrial department of the Massachusetts commission for the blind. Papers were also read by Dr. W. H. Wilder of Chicago on "Prevention of Blindness," and by George W. Jones, superintendent of the School for the Blind at Jacksonville. This afternoon the paper was by Dr. William L. Russell, inspector of state hospital service for the New York commission in lunacy, and to-night Warren P. Spaulding, secretary of the Massachusetts Prison association, will speak on "Adult Probation." On tomorrow's program are Marcus C. Page of the Pittsburgh Associated charities, and Dr. James Stewart, medical supervisor of the St. Louis public schools.

About noon today the delegates inspected the hospital for the insane at South Harrisonville, having luncheon at the Peoria Country club.

### CENSUS TESTS ARE NOT HARD

Expected 3,000 Persons Will Be Examined on October 23 for Positions.

Washington, Oct. 11.—The census bureau authorities expect that fully 75 per cent. will pass of the number to be examined on October 23, next, for the 3,000 additional temporary positions in the census office. On this basis, a total number of 4,000 applicants from all over the country would provide the force permitted under the act of congress appropriating for the thirteenth census and designating the number of employees.

Up to the present time not more than half the required number have filed their applications in conformity with the instructions jointly issued by the department of commerce and labor and the civil service commission. In a recent announcement by the latter it was stated that a very small proportion of the applications are from residents of the more distant states.

It is believed in some quarters that the minimum salary of \$600 per annum and the minimum service of about a year's duration are the considerations deterring applicants in the far west. In this connection it is stated at the census bureau that, while \$600 is the minimum salary for the clerical positions, it is very probable that within a month after beginning work those who render satisfactory service will be promoted until eventually they receive at least \$75 per month. Those who are put to work on the tabulating machines will, in all likelihood, be paid on the piece-price basis, which will afford an opportunity for greater compensation than would otherwise be possible.

### COMMEMORATES INDIAN BATTLE

Point Pleasant Unveils Granite Monument, Erected by Nation and State.

Point Pleasant, W. Va., Oct. 11.—With imposing ceremony a monument was unveiled here today to commemorate the battle of Point Pleasant, on October 10, 1774, in which the Virginia troops under the command of Gen. Andrew Lewis defeated the allied Indian tribes under Chief Cornstalk in a bloody fight that concluded what is known as Lord Dunmore's war. This battle was the most closely contested of all those with the Northwestern Indians and the victory of the whites had great effect on the Revolutionary war that soon followed and on the winning of the west.

The monument unveiled today is a handsome granite structure erected jointly by the United States government and the state of West Virginia. The ceremony attracted a large number of people from cities of the Ohio valley.

### Asks Millions for Railroads.

St. Petersburg, Oct. 11.—The extraordinary budget of the ministry of railroads has been submitted to the duma. It calls for \$31,000,000 for new construction in 1910. All of this amount, with the exception of \$163,000 will be expended in Siberia on the Amur railroad.

### 3,000 Drowned in Hurricane.

New Orleans, La., Oct. 11.—The steamer City of Tampa, which arrived here, brought a report that from 2,000 to 3,000 natives were drowned near Yucatan in the recent tropical hurricane.

Stick to the advertisement you know to be good, but don't stick so fast that you can't see anything else.—Liz.

## WAGON WINDS UP

Then Runs Several Hundred Yards on Its Own Power.

If children cannot have automobiles of their own to run, they can at least have a wagon that will run several blocks on its own power and give them all the fun of speeding for a little while. This vehicle was invented by an Ohio woman, and its motive power is a spring. The wagon is a strong built affair with two seats and a steering apparatus to be operated from the front seat. Underneath the body is a strong spring, which is wound from the back by means of a multiple gear. After the spring has been wound tight the boys get aboard and release the brake which keeps the wheels still. Instantly the vehicle shoots forward at an exhilarating speed, and runs for several hundred yards before it slows down to a stop. The brake, before mentioned, enables the occupants of the wagon to stop it in a short space if there is any danger of running down a poor old apple woman or hitting a trolley car or the track.

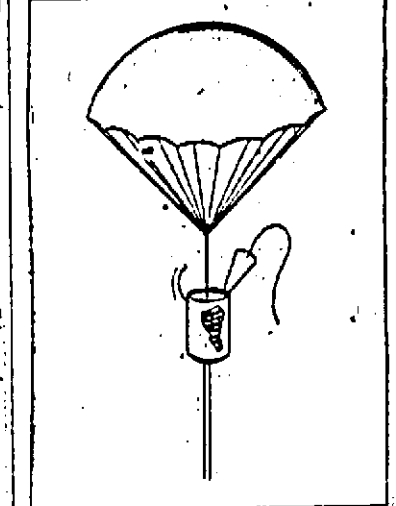

PEN FOR THE BOYS.

Noted from the front seat. Underneath the body is a strong spring, which is wound from the back by means of a multiple gear. After the spring has been wound tight the boys get aboard and release the brake which keeps the wheels still. Instantly the vehicle shoots forward at an exhilarating speed, and runs for several hundred yards before it slows down to a stop. The brake, before mentioned, enables the occupants of the wagon to stop it in a short space if there is any danger of running down a poor old apple woman or hitting a trolley car or the track.

## NOVEL AERIAL TOY

Shoots High into Air and Comes Down a Parachute.

One of the most ingenious toys and one that is right in line with the present interest in aerial affairs, is the parachute device designed by a Florida man. This toy is shot high into the air from an air gun, and when it starts to descend a parachute opens and it descends slowly and gracefully downward. The device consists of a hollow cylinder with a strong spring inside and a rod mounted on the spring and projecting from one end of the cylinder. Attached to the top of the cylinder by a strong cord is

OPENS UP AS IT FALLS.

a parachute which is folded up and held on top by a pin tied over it. The rod is then placed in the barrel of an air rifle or it can be notched and fired to a bow, and discharged in the air. While it is rushing head foremost the flap remains tied, but when it starts to descend the weight of the rod and the release of the spring in the opposite direction break the flap open and the parachute opens.

THOUGHT OF HER.

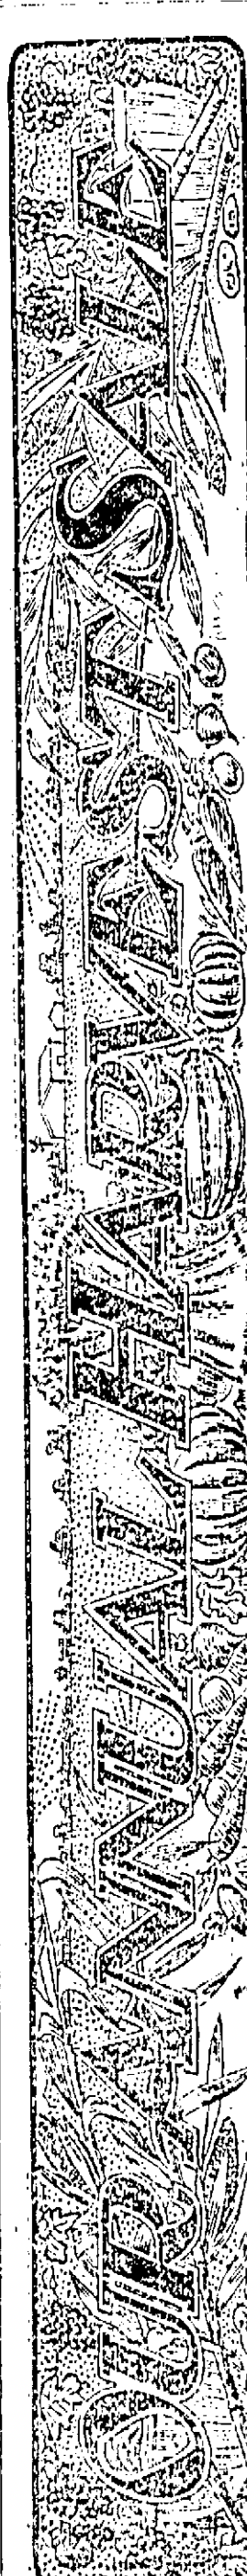

Mother—Tommy, have you eaten all your candles without even thinking of your little sister?  
Tommy—Oh no, mamma. I was thinking about her the whole time. I was afraid she'd come before I had finished.

## An Unmentioned Ancestor.

Mr. B.—is very proud of his ancient lineage and never lets slip an opportunity to boast of it. At a dinner where he had been unusually thinking on this subject, a fellow guest quoted him by remarking: "If you climb much further up your family tree you will come face to face with the monkey."—Lippincott's.

Not Fattening.

Jaloucy is poor food for love.

TIED SCORE IN  
GAME YESTERDAYCONTEST BETWEEN DELOIT AND  
JANESVILLE RESULTED

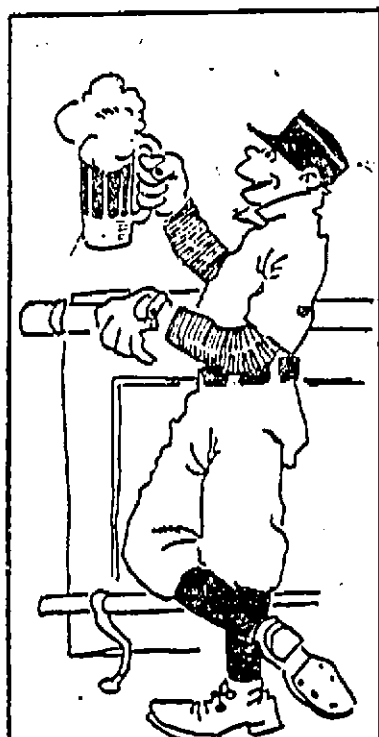

1 TO 1.

LARGE CROWD OF FANS

Shuddered and Shivered Through  
Nine Innings of Excitement—  
Rain And Darkness Ended  
Game.

Before a shuddering, shivering crowd that applauded the playing enthusiastically, the Janesville Trojans (team) tied the Deloit Trolley 1 to 1, in a nine inning contest. The rain and semi-darkness, which accompanied the spectators so much discomfort, prevented playing of the game. An error by Armstrong, the third baseman for Janesville, in the fourth inning, gave Deloit its first lead, but it was not until the last time to bat, when Briggs did in home.

The excitement throughout the game was intense. Both pitchers were from American League teams and the crowd was anxious to see what they would do. Warhop, of the

HE LIFTED  
A HIGH ONE

"Smiley" Smith Lifted a High One to  
Second and Briggs Was Safe.

New York Highlanders, allowed Janesville but did not hit, but walked seven men and hit two men with the ball.

His low ball fooled the Janesville players somewhat. He did not last as long as the Janesville pitcher, however, showing a slump in the last rounds of the contest.

Fione, one of the staff of the Chicago White Sox, who has appeared for them but a few times in the big leagues, was in the box for Janesville and pitched an excellent game. He had a drop ball which kept Deloit swinging at empty air, and speed that was surprising.

Deloit came to bat first and Fione and Smith were struck out on Fione's drop. Lese, a Cub recruit from the St. Paul American association's team,

Struck out by Fione—Mills, Smith, McAuley, 2; Warhop—Pierce, 2; Erickson, 3; Hizer. By Warhop—Irland, Ives, Mo, 2; Armstrong 2; Solbra, Anderson, Fione 3.

Base on balls, of Fione, 1; Warhop, 7. Hit by pitched ball, Mo, 2; Briggs, Double play, Perring to Hizer. Left

may be coffee

That Causes all the Trouble.

When the disease is after, it's like a

body when disease begins to show, it's

no time to talk but to act—delay is

dangerous—remove the cause of the

trouble at once.

"For a number of years," says a

Kansas lady, "I felt sure that coffee

was hurting me, and yet, I was so

fond of it, I could not give it up. I

between the pitcher and first base.

The fourth was the eventual lining

for Deloit. Mills made a single, and

Smith followed with another. Lese

was put out and Perring also went to

first, so that three men were on the

bases. McAuley came up and drove

one to Armstrong at third, but Arm-

strong fumbled it and Mills reached

the plate safely. Warhop struck out.

Warhop first began to show good

form in this lining fanning Moss, Arm-

strong and Solbra, one, two, three.

After the fourth lining Deloit got

no further than second base, once in

the sixth on a single by Smith and

in the eighth when Fione walked his

first man, Mills. Warhop began to

lose control of his pitching arm in

the sixth, passing lives to first on four

balls and then hitting Moss with the

ball.

The only double play made during

the game was by Deloit in the seventh

round of play. Solbra went on a

fly to right field. Warhop hit Briggs,

Anderson knocked a pop fly to Perring.

Briggs caught it and went to second,

but seeing he would be caught, at-

tempted to regain first, but Perring

was too quick for him and he was

touched out.

It was in the eighth that the Janes-

ville fans began to hope that their

favorite might win, or at least tie

the score. Rowland made a single

sucker and Fione attempted to suc-

ceed, but failing, and Rowland was

struck out. Ireland and Ives were

allowed to stroll down to first and Moss

was again hit. Warhop got "cold

feet" and tried to lay down, desiring

that the game be called then and

there. The umpire refused, but Arm-

strong, who was relied on for a hit,

struck out.

With Perring and Lese, the first

two up, the lower City fans held

their breath and waited for the pitch-

er to do the work. Lese hit a

grounder to Fione and went out,

grinding hit out a nice fly which was

unbatted by the center fielder, and

McAuley, who followed him, was

whiffed.

Deloit fans gave a good demonstra-

tion of their sportsmanship in the

ninth lining, by objecting to a de-

cision of the umpire and screaming

down off the benches to force him

to change his decision and give him

the game to them, but Newman stood

his ground and refused to be bullied.

Warhop had allowed Solbra to enter

down to first. Briggs attempted to

sacrifice, but instead of putting him

out at first, Warhop turned and threw

to second and Solbra was caught.

Briggs stole second, a wild leave by

Smith to second baseman landing him

safe on the bag. Anderson walked,

and a pass ball which Smith did not

stop hit Anderson got to second and

put Briggs on the third sack. (Row-

land) hit out a nice little fly to

Erickson, who caught it. Briggs

started for home and by sliding he

landed on the home plate and was

ruled safe by the umpire. It was this

decision which took victory away

from the "falling" that annoyed

the Deloit followers of the sport.

Fione struck out and the umpires

called the game off, the rain and

cloudiness having hindered the play-

ing for the last half of the game.

Erickson, right fielder for Deloit,

made a grandstand play in the

seventh, making a long run after a

ball hit out by Solbra. He had to

reach out for it, but grabbed and

fell still hanging onto the ball.

Following is the score:

MONROE CLUB

IS 25 YEARS OLD

Woman's Club Celebrates Anniversary

of Organization with Banquet

and Entertainment.

(Special to The Gazette.)

Monroe, Wis., Oct. 11.—The Mon-

roe Woman's club, celebrated the

twenty-fifth anniversary of its orga-

nization at Knights of Pythias hall,

with a banquet followed by an ex-

cellent program. The members of

the club, together with their invited

guests, numbered over eighty. Mrs.

Lela Lindlow, who served the club as

its first president, gave the opening

address, presiding briefly upon the

past of the society and expressing

faith in the future greatness of the

club. Tribute was also paid to Dr.

Helen Hingham, founder of the club,

</

"I have heard so," Baraka answered, her anger subsiding. "but it is very strange. If it be so, and if all things should happen as we said, which Allah avert, and if you desired me for your wife, I would marry you without doubt. You are a great man, and rich, and you are good to look at, and kind, and you are good to look at, and I should have gone back to my father's house. Truly," she added, in a thoughtful tone, "you would make a desirable husband for Baraka. But the man I seek must marry me if I find him alive, for I gave him the riches of the earth and he gave me nothing and departed, leaving me to die. I have told you, and you understand. Therefore let us not fear about these things any more. What will be, will be, and if he must die, it is his portion, and mine also, though it is a pity."

Thereupon the noble little features became very grave, and she leaned

Captain Brown Got Information About the Erinna.

back in her chair and folded her hands in her lap, looking out at the violet light on the distant volcano. After that, at dinner and in the evening, they talked pleasantly. She told him tales of her own land, and of her childhood, with legends of the Altai, of gent and enchanted princesses; and he, in return, told her about the great world in which he lived; but of the two, she talked the more, no doubt because he was not speaking his own language. Yet there was a bond of sympathy between them more natural and instinctive than any that had ever drawn him and Margaret together.

When the sun was up on the next morning and Logothetti came on deck to drink his coffee alone, he saw the magic straits not many miles ahead, in an opalescent haze that sent up a vapor of pure gold in the pale blue enamel of the sky. He had been just where he was now more than once before, and few sights of nature had ever given him keener delight. On

## ANOTHER WOMAN CURED

By Lydia E. Pinkham's Vegetable Compound

Gardner, Maine.—"I have been a great sufferer from organic troubles and severe female weakness. The doctor said I would have to go to the hospital for an operation, but I could not bear to think of it. I decided to try Lydia E. Pinkham's Vegetable Compound, and I was entirely cured after three months' use of it."—Mrs. S. A. Williams, R. F. D. No. 14, Box 33, Gardner, Me.

No woman should submit to a surgical operation, which may mean death, until she has given Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial. This famous medicine for women has for thirty years proved to be the most valuable tonic and renewer of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills, and creates radiant, buoyant female health. If you are ill, for your own sake as well as those you love, give it a trial. Mrs. M. A. Smith, at Lynn, Mass., writes: "I am a weak woman, I write for advice. My doctor is free, and always helpful."

helm' hauled over to port, and turned back towards the straits in the small, dark space possible for her, passing less than a cable's length from the Seylla rock, and nearly running down half a dozen fishing boats that pulled like mad to get out of her way; for they supposed that the steering-gear had broken down, unless her captain had gone raving mad.

While this was going on, Capt. Brown himself, with the international signal code in his hand, was calling out letters of the alphabet to a quartermaster, and before his ship had made half a circle the flags ran up the single stick the yacht carried.

"My owner has urgent business with your owner," was what the flags meant in plain English.

The Erinna was going slow, for Baraka was only just ready to come on deck, hasty being in her opinion, an invention of Shaltan's. Logothetti, who wished her to see the straits, was just inside the door of the deck saloon, waiting for her to come out of her cabin. The officer of the watch read off the signals of the other yacht, ran up the answering pennant, and sent for the sailing-master, but could send for no one else without orders. So the Erinna continued to go slow. All this took some minutes, for the officer had naturally been obliged to look up the signal in the code before answering it; and in that time Van Torp's yacht had completed her turn and was nearly alongside. The Lancashire Lass slowed down to the Erinna's speed, and the two captains aimed their megaphones accurately at each other from their respective bridges for a little pleasant conversation. Capt. Brown, instructed by Mr. Van Torp at his elbow, repeated what his signals had meant. The other sailing-master answered that he had already informed his owner, who was coming to the bridge directly.

At that moment Logothetti appeared. There was not much more than a cable's length between the two yachts, which in land-talk means 200 yards. Van Torp also saw a well-tied over her hair, leaning on the rail of the promenade deck and looking towards him. With his glasses he recognized the features of Baraka.

"Got 'em!" he ejaculated in a low but audible tone of intense satisfaction. Logothetti had also seen Van Torp, and waved his hand in a friendly manner.

"Ask the gentleman if he'll come aboard, captain," said the American. "I can't talk through your megaphone anyway. I suppose we can send the naphtha launch for him if we stop, can't we?"

"Can't stop here," answered Capt. Brown. "The currents might jam us into each other, and we should most likely get aground in any case. This is not even a safe place for going slow, when the tide is running."

"Well, you know your business, and I don't. Tell him we don't want to interfere with any arrangements he's made, and that if he'll kindly get the pace he likes we'll trot along behind him (ill we get to a nice place, somewhere where we can stop. I suppose he can't run away from us now, can he?"

## SECRETARY KNOX NOW AFTER CRANE

MINISTER MUST CLEAR HIMSELF IN EYES OF THE SECRETARY.

HE REACHES WASHINGTON

Conference May Result in Diplomat's Termination of His Connection with Service—Discussion of Eastern Treaties Regarded Indiscreet.

Washington, Oct. 11.—It is known in well-informed quarters in Washington, that unless Charles R. Crane, whose sudden, unexpected and hitherto mysterious recall to Washington by Secretary of State Knox, is able to clear himself in the eyes of the secretary of an accusation of a serious breach of what the state department regards as the first principle of diplomatic discretion, the conference with his official chief may result in the quick termination of the diplomat's connection with the diplomatic service. Mr. Crane was at the point of sailing from San Francisco to assume his duties as minister to China when he received his recall to Washington and this was occasioned by developments involving the question of his fitness for that post.

Reaches Washington. When Minister Crane arrived in Washington from his hurried journey across the continent he reiterated his declaration of ignorance as to the occasion for his rather dramatic recall from the water's edge of the Pacific and declined to discuss the matter in any of its aspects, beyond saying that, while he expected to be here several days, he had reserved new accommodations for the trans-Pacific voyage on the steamer sailing from San Francisco on October 20—a week from next Wednesday.

Discussed Treaties Indiscreetly. The state department has in hand, it is said, what it regards as more or less convincing evidence that Minister Crane, on the eve of his departure for the far east, became responsible for the publication in a Chicago newspaper of what the department views as a most indiscreet discussion of the attitude of the United States toward the two treaties recently negotiated between China and Japan. This the department holds to have been the more serious because that attitude is still under confidential consideration, no decision having been arrived at.

Unwise and Undiplomatic. While the speeches delivered by Mr. Crane before the American Asiatic association, and at a dinner given in his honor at Chicago, are viewed at the state department as having been at best unwise and undiplomatic, they have been carefully considered after their delivery and before Mr. Crane started for San Francisco, and, although deprecated, were not regarded as justifying any change in his plans. The Chicago publication falls, however, in the eyes of the department into a category very different and far more serious.

## WRIGHT BREAKS SPEED RECORD

He Attains Rate of 46 Miles an Hour for 500 Meter Course.

College Park, Md., Oct. 11.—With practically a dead calm settled over College Park, Wilbur Wright broke the world's record for speed in an airplane over a 500-meter course, including a turn beyond the course, his time being 58.55 seconds, or 20 seconds less than that made by Delage over a similar course in France. Mr. Wright attained a speed of 46 miles an hour for the distance.

An Wright left the starting point, Lieut. Lahm took the time, Wright made the 500 meters in the direction of Washington with a slight wind to his back in 21.15 seconds. He returned over the course in 24.40 seconds. So much did the aviator urge the machine with all the power turned on that it hobbled perceptibly more than it did during his slower flights.

## TWO WOMEN GORED BY BULLS

Beasts Escape from Wrecked Train.

Two Men Killed, Another Injured. Allentown, Pa., Oct. 11.—One of the worst freight wrecks in the history of the Central Railroad of New Jersey occurred at Siegfried in a heavy fog. A freight train carrying 17 carloads of cattle and 23 cars of grain to Allentown was run into a cross-over by a drill engine. Two men are dead and one man was injured. Sarah Brinkman and Alice Dettler, servants at the Allen house, Siegfried, were gored by bulls that escaped from the train. Miss Brinkman was tossed by one and had both legs cut. Her corset saved her body from being lacerated.

Arrested as a Home Breaker. Albany Park, N. Y., Oct. 11.—Theodore B. Wilson, a member of the New York stock exchange, was arrested on a train and locked up in Freshkill, N. Y., lacking \$10,000 bail, by Malcolm Hurty of Washington, for the alleged allegations of the affections of his wife.

To Amend the Constitution. Washington, Oct. 11.—Senator Owen of Oklahoma announced that he will introduce at the next session of congress a resolution calling for a constitutional convention to amend the method of electing United States senators as laid down in the constitution.

It is all right to keep telling the same old story in your advertisements, but don't make the mistake of telling it in the same old way.

English Polo Stick Dangers. English polo is far less dangerous than it was, but nevertheless, there have during the past season been far too many accidents from blows by polo sticks more or less serious. The polo stick is a very formidable weapon, and requires considerable skill and restraint in its use.—The Field.

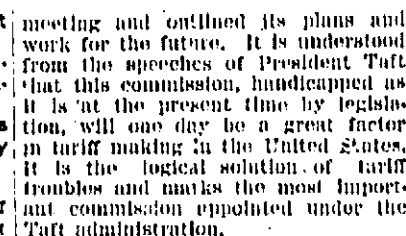

Choosing a Husband. A well known after dinner speaker in New York said the other day: "Choosing a husband is like choosing mushrooms—"If it is a mushroom, you live; if it is a toadstool you die."—What to Eat.

Notice of Hearing. STATE OF WISCONSIN. County Court for Rock County. Probate. Notice is hereby given that at a special term of the county court to be held in and for said county, at the court house, in the city of Janesville, in said county, on the third Tuesday, being the 19th day of October, 1909, at nine o'clock a. m., the following matter will be heard and considered: The application of Margaret A. Douglas for the appointment of an administrator of the estate of Andrew Douglas, late of the town of Harmony, in said county, deceased. Dated September 27, 1909. By the Court: Nolan, Adams & Fowler, Attorneys for Petitioner. mawsep2709cw

# "WILLIE BOY" DEFIES CAPTURE

The First Ward Aldermen are cleaning off the Nicolson pavement this afternoon. Now hold your horses.

The increase in population of about forty thousand during the last two decades is attributed to the government's constant effort to uplift the Indian to the level of contemporary civilization. The government is not only providing this race with its powerful protection, but is providing every means for the upbuilding and enlightenment of the race and is injecting into the Indians' daily life civilized customs and modern methods. Three and one-third million dollars is being expended by the United States annually for the education of more than 30,000 Indian boys and girls.

Surprised at this action, Justice Gaylor issued a brief statement, charging Hearst with breach of faith, and he came out with a statement and a letter, purporting to show that Hearst had urged him to run for mayor nearly six months ago, "on any ticket," and pledging his support.

ots of the balloons St. Louis No. 3 and the Centennial, respectively, are entitled to the Lahm cup, although each sailed more than 475 miles in the race which started from here last Monday. They failed to register for the cup.
